Nordax Bank AB (publ)

INTERIM REPORT JANUARY–MARCH 2023

About the Group

ABOUT THE GROUP

Nordax Bank AB (publ) (Corporate Identity Number 556647-7286) (hereinafter "Nordax" or "Nordax Bank"), with its registered office in Stockholm at Box 23124, SE-104 35 Stockholm, Sweden, telephone number +46 8 508 808 00, www.nordaxgroup.com, is a wholly owned subsidiary of Nordax Group AB (Corporate Identity Number 556993-2485), with its registered office in Stockholm. The Nordax Group's owner is Nordax Holding AB (publ), which is primarily owned directly and indirectly by Nordic Capital Fund VIII to about 35 per cent, Nordic Capital Fund IX to about 45 per cent and Sampo Oyi to about 20 per cent. On March 31 2023, Nordax Group AB controlled 100 per cent of the shares in the Company. This is Nordax' twentieth financial year.

In the Nordax Bank Group, there exists a number of subsidiaries to Nordax Bank, among others Svensk Hypotekspension AB (hereinafter "SHP") and its subsidiaries. Other subsidiaries of Nordax Bank include NOBA Sverige AB, Nordax Sverige 5 AB (publ), Nordax Sweden Mortgages 1 AB (publ) and Lilienthal Finance Ltd. SHP consists of Svensk Hypotekspension Fond 2 AB, Svensk Hypotekspension Fond 3 AB (publ), Svensk Hypotekspension Fond 4 AB (publ) and Svensk Hypotekspension 5 AB (publ). After the cross-border legal merger between Nordax Bank and its subsidiary Bank Norwegian ASA, which took place on 30 November 2022, the operations of Bank Norwegian ASA is hereafter carried out through a Norwegian branch of Nordax Bank under the name Bank Norwegian, a part of Nordax Bank AB (publ).

Nordax Bank AB was authorized on 27 January 2004 as a credit market company to carry out finance activities. On 5 December 2014, Nordax received approval to carry out banking activities by the Swedish Financial Supervisory Authority according to the Banking and Finance Business Act and changed its name to Nordax Bank AB (publ).

Using a centralized business model and an organization based in Stockholm and Oslo, Nordax conducts crossborder banking activities in Sweden, Norway, Denmark, Finland, Germany, the Netherlands, and Spain in accordance with Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms.

Nordax' main business consists of lending to the general public in the Nordic countries, Germany and Spain. Although Nordax previously operated in Germany to a small extent, it was in 2021, through its now merged subsidiary Bank Norwegian ASA, that new lending was launched on these non-Nordic markets. Lending consists of unsecured loans up to the equivalent of SEK 600,000, NOK 600,000, DKK 400,000, and EUR 60,000. Since 2018, loans secured against residential property are offered in Sweden and, as of 2019 also in Norway.

Through the subsidiary SHP, acquired in January 2019, Nordax also offers loans secured against residential property to Swedes aged 60 and older through the product equity release mortgage. Since November 2021, Nordax also offers credit cards in the Nordic countries, Germany and Spain through its branch Bank Norwegian.

Nordax also offers savings accounts to the general public in Sweden, Norway, Finland, Denmark, Germany, Spain and the Netherlands. Deposits in savings accounts are one element of Nordax' diversified financing platform, which also consists of asset-backed securities, financing against collateral from international banks, bonds, equity and subordinated liabilities.

Nordax' business comprises a diversified set of distribution channels. These are made up of direct channels such as online channels, direct marketing and existing customers and indirect channels such as loan intermediaries. As of 31 March 2023, 54% of new sales was generated via indirect channels and 46% via direct channels and existing customers.

Nordax has a solid customer base where the responsible lending is illustrated both via the customers and via their use of Nordax' products. Nordax' personal loan customers are drawn from all age groups and social classes, and are typically middle-aged professionals with relatively high incomes, with the majority owning their own home. Of the outstanding personal loan volume, 93% is covered by a left-to-live surplus of above 3,000 SEK and of the same volume 66% has been used to refinance previous loans. Of the credit card customers, approximately 99.5% pays their invoice in due time. Together with the customers utilizing Nordax' mortgages and equity release products, Nordax' customer base shows a very high customer satisfaction where Nordax' Swedish survey during 2022 displayed the highest customer satisfaction in the banking industry.

DEVELOPMENT DURING THE FIRST QUARTER COMPARED TO THE PREVIOUS QUARTER

Portfolio development

Total lending as of 31 March 2023 amounted to SEK 93.7 billion (SEK 88.8 billion as of 31 December 2022). Currency adjusted, all products and markets contributed to the increase in volume, with the Norwegian branch Bank Norwegian strongly contributing to the growth.

Personal loans and credit cards

During the first quarter of 2023, Nordax' portfolios of both private loans and credit cards showed a good growth. As of 31 March 2023, the total volume of personal loans and credit cards amounted to SEK 77.7 billion (SEK 73.0 billion as of 31 December 2022).

Mortgage loans

Nordax began offering mortgages in Sweden in 2018. The main target group is customers with some form of non-traditional employment, i.e. self-employed or temporary employees, including project, part-time or replacement workers. Through a thorough credit assessments and personal contacts, more loans are approved for this customer group, which is often rejected by the major banks despite being financially stable. Interest in the offer has been high and new lending continues to grow.

At the end of the first quarter 2019, Nordax also launched mortgage loans in the Norwegian market. As in Sweden, the target group in Norway is the non-standard segment, i.e. customers who fall outside the narrow framework of the major banks.

New lending has, during the first quarter, been affected by the continuing general rise of interest rates in society but is still displaying growth where the total mortgage portfolio amounted to SEK 7.1 billion as of 31 March 2023 (6.9 billion as of 31 December 2022). The portfolio growth for the first quarter was negatively affected by a weakening Norwegian krona.

Equity release mortgages
In line with previous historical periods, the portfolio has continued to develop well during the first quarter of 2023 and shows stable new lending. The market for equity release mortgages has a good development potential and SHP has a strong brand within the customer group with continued great customer interest. The total portfolio of equity release mortgages amounted to SEK 9.0 billion as of 31 March 2023 (SEK 8.8 billion as of 31 December 2022).

Capital and liquidity
Nordax's consolidated situation has very good capital and liquidity position.

As of March 31, 2023 Common Equity Tier 1 Capital Ratio amounted to 14,57% (15,05%), the Tier 1 capital ratio amounted to 16,47% (17,06%) and the total capital ratio was 18,13% (18,88%).

The CET1-capital ratio requirement for the period was 8,88% (10,36%), Tier 1 requirement was 10,61% (12,15%) and the total capital ratio requirement was 12,92% (15,02 %). The lower capital ratios were mainly because the increase in CET1 capital, as a result of earnings, was lower than the growth in risk exposure amount.

The decrease in the capital requirements was mainly due to a consequence of the internal capital adequacy assessment process which was carried out during the first quarter of 2023 where Finansinspektionen's assessment methods and requirements have been applied for all risks. This assessment lowered Nordax Pillar 2 requirements from 3.48% to 1.25%. Before the first quarter of 2023, Nordax included Bank Norwegians Pillar 2 requirements for certain risks that was granted from Finanstilsynet before the legal merger in November 2022.

During the period, the countercyclical buffer requirements in Denmark and Norway increased from 2% to 2.5%, and in Germany from 0% to 0.75%, which increased Nordax countercyclical buffer requirements to 1.17% (1.04%).

Nordax's CET1 capital increased during the year and amounted to SEK 10.9 billion (SEK 10.7 billion) mostly driven by the positive net profit.

The leverage ratio was 10,36% (10,41 %).

Nordax's liquidity reserve amounts to SEK 17.6 billion (SEK 20.3 billion) and consists mainly of covered bonds, treasury bills and deposits with central banks and Nordic credit institutions. The liquidity coverage ratio (LCR) was 223,5 % (253,2 %).

Net stable funding ratio (NSFR) was 119,4 % (122,0 %). Nordax has a diversified funding structure with different sources allocated between credit institutions, the capital market and deposits from the public. Deposits from the public is the largest funding source and amounts to SEK 80.1 billion for the period (77.1 billion).

For additional information on capital and liquidity, see Note 5 Capital adequacy analysis.

DEVELOPMENT DURING THE FIRST QUARTER 2023 COMPARED TO THE FIRST QUARTER 2022

Portfolio development
Total lending as of 31 March 2023 amounted to SEK 93.7 billion (SEK 75.0 billion as of 31 March 2022). All products and markets contributed to the increase in volume compared to the corresponding quarter 2022.

Personal loans and credit cards
Compared to the first quarter 2022, the portfolio of private loans and credit cards showed a good growth. The total volume of personal loans and credit cards as of 31 March 2023 amounted to SEK 77.7 billion (SEK 61.5 billion as of 31 March 2022).

Mortgage loans
New lending has, during the first quarter, been affected by the continuing general rise of interest rates in society but is displaying a stable growth where the total mortgage portfolio amounted to SEK 7.1 billion as of 31 March 2023 (5.6 billion as of 31 March 2022). Also compared against the first quarter of 2022, the portfolio growth was negatively affected by a weakening Norwegian krona.

Equity release mortgages
The portfolio has steadily continued to develop well and shows stable new lending. The total volume of equity release mortgages amounted to SEK 9.0 billion as of 31 March 2023 (SEK 7.9 billion as of 31 March 2022).

Capital and liquidity
As of March 31, 2023 Common Equity Tier 1 Capital Ratio amounted to 14,57% (15,29%), the Tier 1 capital ratio amounted to 16,47% (17,85%) and the total capital ratio was 18,13% (19,85%).

The CET1-capital ratio requirement for the period was 8,88% (12,96%), Tier 1 requirement was 10,61% (14,54%) and the total capital ratio requirement was 12,92% (16,66 %). The lower capital ratios were mainly because the increase in CET1 capital, as a result of earnings, was lower than the growth in risk exposure amount.

The decrease in the capital requirements was mainly due to a consequence of the legal merger of Bank Norwegian. This decreased Nordax' Pillar 2 requirements as well as the Norwegian systemic risk buffer, which 31 March 2022 for Nordax amounted to 1.84%, after the legal merger is no longer applicable to Nordax. The lower Pillar 2 requirements is due to the internal capital adequacy assessment process, which was carried out during the first quarter of 2023, where Finansinspektionen's assessment methods and requirements have been applied for all risks. This assessment decreased Nordax Pillar 2 requirements from 4,02% to 1.25%. In March 2022, Nordax included Bank

Norwegians Pillar 2 requirements for certain risks that was granted from Finanstilsynet.

During the period, the countercyclical buffer requirements in Norway increased from 1% to 2.5%, in Denmark from 0% to 2.5%, in Sweden from 0% to 1% and in Germany from 0% to 0.75%, which increased Nordax countercyclical buffer requirements to 1.17% (0,30%).

Nordax's CET1 capital increased during the year and amounted to SEK 10.9 billion (SEK 9.7 billion) mostly driven by the positive net profit.

The leverage ratio was 10,36% (10,33 %).

Nordax's liquidity reserve amounts to SEK 17.6 billion (SEK 26,9 billion) and consists mainly of covered bonds, treasury bills and deposits with central banks and Nordic credit institutions. The liquidity coverage ratio (LCR) was 223,5 % (183,3 %) [1].

Net stable funding ratio (NSFR) was 119,5 % (132,8 %). Nordax has a diversified funding structure with different sources allocated between credit institutions, the capital market and deposits from the public. Deposits from the public is the largest funding source and amounts to SEK 80.1 billion for the period (70,3 billion).

For additional information on capital and liquidity, see Note 5 Capital adequacy analysis.

OTHER EVENTS

The uncertainty on the financial markets and in the real economy remained also during the first quarter. Both the effects from the war in the Ukraine and the high inflationary numbers, with the corresponding central bank interest rate hikes, continued to pressure both households and corporations. However, there were signs of decreasing inflation, among other things driven by falling energy prices. In addition, the markets were also worried by the turbulence that arose among certain American niche-banks following upon large and swift outflows of corporate deposits. All in all, these effects have had an impact on Nordax' customers and other stakeholders and this is something that Nordax continuously monitors. As a result of the generally rising interest rate levels during the first quarter, Nordax continued to, in line with previous quarters, make additional interest rate hikes.

On March 8, 2023, Nordax initiated a process to change the name of the company to NOBA Bank Group AB (publ). The name change is part of a process seeking to establish a new group name that brings all three existing brands – Bank Norwegian, Nordax Bank and Svensk Hypotekspension – under the single name of NOBA. The brands, including Nordax Bank, will continue to operate separately as previously, and customers will not be affected by the change of the Group's name. The name change requires approval from the Swedish Financial Supervisory Authority prior to being registered with the Swedish Companies Registration Office.

In early 2023, Anna Storåkers stepped down from Nordax' Board of Directors and Ragnhild Wiborg was elected to replace her. In the beginning of the year it was announced that Klara-Lise Aasen would leave her position as branch manager. In February, Tore Andresen, COO of Nordax Bank's Norwegian branch Bank Norwegian, became a member of the Group management team.

SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

During April, Nordax concluded the sale of an NPL portfolio in Finland with a gross lending volume of SEK 545 million. The sale resulted in a positive impact on operating profit.

The process, initiated during Q1, of changing Nordax' company name to NOBA Bank Group AB (publ) continued. The Swedish FSA has granted the necessary approval in order to make the change in the articles of association and the Swedish Companies Registration Office is expected to register the change of name during June of 2023.

The Norwegian Ministry of Finance announced 14 April that it had requested the European Systemic Risk Board, ESRB, to lower their recommended materiality threshold for application of the Norwegian Systemic Risk Buffer from NOK 32 billion in REA to NOK 5 bn, relating to Norwegian exposures, applicable as of 31 December 2023. The request was sent to the ESRB in December 2022 and in March 2023 ESRB followed the Ministry's request, thus recommending national authorities to reciprocate the new threshold within three months of its publication in the Official Journal of the EU. If the Swedish FSA reciprocates the recommendation, Nordax will thus be required to hold a Systemic Risk Buffer for Norwegian exposures. The Buffer would for Nordax amount to approximately 1% of total Risk Exposure Amount and would come in force 31 December 2023.

On 1 April 2023 Merete Gillund, previously part of the Group management team and head of Innovation and Strategic Projects, replaced Klara-Lise Aasen as branch manager.

During April SHP, through the subsidiary Svensk Hypotekspension 5 AB (publ), obtained a new bilateral secured financing of MSEK 250 with an international bank.

Events relating to cooperation with the Norwegian Air Shuttle group

Nordax Norwegian branch, Bank Norwegian, has, as a precautionary measure to protect its intellectual property, on the 23rd of May filed a lawsuit requesting a declaratory judgement with the Oslo District Court against companies within the Norwegian Air Shuttle group to confirm our right to use the Bank Norwegian brand.

Bank Norwegian was established in 2007 and today delivers a wide range of innovative and popular products and services to about 1,55 million unique customers across the Nordics. In 2022, Bank Norwegian became part of Nordax Bank. Consequently, according to Norwegian law, Bank Norwegian is required to clearly communicate that it is a part of Nordax Bank. The airline Norwegian Air Shuttle disagrees with our right to market our own name, Bank

[1]When calculating the LCR of the Consolidated Situation, Nordax has chosen to include only the liquidity buffer required to cover Bank Norwegian's net outflow, as Nordax does not consider that liquidity exceeding 100% of Bank Norwegian's net outflow can be freely used by the Consolidated Situation. If Bank Norwegian's surplus liquidity was included in the Consolidated Situation, the LCR would have been 476.5% as of 31 March 2022.

Norwegian, and objects to us fulfilling our legal requirements to clearly communicate that Bank Norwegian is a part of Nordax Bank. In order to confirm our ability to continue to deliver and develop industry-leading services to our customers under our own brand name, and doing so in continued compliance with Norwegian law, we have initiated the above-mentioned lawsuit. Our brand name is an integral and foundational part of our relationship with our customers, and we are committed to protecting it.

The group has during May also decided to initiate a graphical re-design of the Bank Norwegian brand, across all markets. The new design is planned to be implemented during the second half of 2023 and is expected to result in one-off costs of circa 100 MNOK mainly related to impairment of certain, by Bank Norwegian, pre-paid intangible rights relating to licensing of the current design. The impairment of the intangible rights will not have any impact on the capital base, as they are already deducted.

Given the initiated legal proceedings and the planned graphical re-design, the bank also plans, during the second half of 2023, to initiate a strategic review of the cooperation with the Norwegian Air Shuttle group relating to credit cards. As the Nordic region's largest specialist bank with a continuous growth agenda, we value predictability and flexibility that enable us to offer the best possible products and services to our customers.

Result January–March 2023

THE GROUP RESULT COMPARED TO THE FOURTH QUARTER 2022

Operating profit amounted to MSEK 439 MSEK (77). The increase is explained by a continued solid growth and increased net interest income, decreased sales costs and by the fourth quarter being substantially negatively affected by transformation costs and impairment of intangible assets relating to Lilienthal Finance Ltd.

Net interest income amounted to MSEK 1 832 (1 781). Net interest income primarily increased by growing lending.

Commission income amounted to MSEK 101 MSEK (117). The decrease was in line with expectations as the fourth quarter typically is seasonally strong.

Operational expenses amounted to MSEK -390 MSEK (-662). Of the expenses, general administrative expenses made up MSEK -367 (-436) whereof MSEK -313 (-341) related to the underlying business and MSEK -54 (-95) related to transformational expenses mostly connected with the integration of Bank Norwegian and the ongoing change of core banking system within Nordax. Operational expenses also include depreciation and impairment of property, plant and equipment and other intangible assets and amounted to MSEK -23 (-226), where the decrease is primarily explained by the impairment of intangible assets relating to Lilienthal Finance Ltd encompassing MSEK -201 in the fourth quarter.

Other operating expenses is made up of marketing costs and sales costs related to credit cards and amounted to MSEK -266 (-295). The decrease is primarily driven by lower sales costs related to credit cards.

Depreciation and impairment of intangible assets related to transaction surplus values amounted to MSEK -35 (-36) which was according to plan. These costs are purely related to the accounting treatment of allocated surplus values from previous acquisitions and do not affect neither cash flows nor capital adequacy since the asset is already deducted from the capital base. Of the MSEK -35, MSEK -34 relates to the acquisition of Bank Norwegian and the remaining part to the acquisition of Svensk Hypotekspension.

Credit losses amounted to MSEK -823 (-855), corresponding to 3,6 per cent (4,0) of average lending. The quarter was to a large extent affected by further provisions relating to loans in Stage 1 which increased with MSEK -161 (-114) and provisions for Continental Europe of MSEK -79 (-71).

Adjusted operating profit

The quarterly operating profit was negatively affected by the ongoing expansion in Continental Europe (Germany and Spain), especially given high initial credit losses in these markets. The operating profit from Continental Europe amounted to MSEK -80 (-62).

Since the Bank's operating profit currently, to a large extent, is affected by transformational expenses, initial costs related to Continental Europe and accounting effects from intangible assets primarily related to the acquisition of Bank
Norwegian, management also monitors the business based on an adjusted operating profit where the effects of these costs, and other non-recurring items, is excluded. The adjusted operating profit amounted to MSEK 608 MSEK (471)[1].

THE GROUP RESULT COMPARED TO THE FIRST QUARTER 2022

Operating profit amounted to MSEK 439 MSEK (273). The increase is explained by a continued solid growth and increased net interest income and through improved net financial income.

Net interest income amounted to MSEK 1 832 (1 625). Net interest income primarily increased by growing lending.

Commission income amounted to MSEK 101 MSEK (69). The increase was among other things driven by an increased credit card usage.

Operational expenses amounted to MSEK -390 MSEK (-340). Of the expenses, general administrative expenses made up MSEK -367 (-313) whereof MSEK -313 (-257) related to the underlying business and MSEK -54 (-56) related to transformational expenses mostly connected with the integration of Bank Norwegian and the ongoing change of core banking system within Nordax. Of the underlying general administrative expenses, depreciation and impairment of property, plant and equipment and other intangible assets amounted to MSEK -23 (-27).

Other operating expenses is made up of marketing costs and sales costs related to credit cards and amounted to MSEK -266 (-312). The decrease is primarily driven by lower costs related to Continental Europe.

Depreciation and impairment of intangible assets related to transaction surplus values amounted to MSEK -35 (-36) which was according to plan.

Credit losses amounted to MSEK -823 (-612), corresponding to 3,6 per cent (3,4) of average lending. The quarter was to a large extent affected by further provisions relating to loans in Stage 1 which increased with MSEK -161 (1) and provisions for Continental Europe of MSEK -79 (-14).

Adjusted operating profit

The quarterly operating profit was negatively affected by the ongoing expansion in Continental Europe (Germany and Spain), especially given high initial credit losses in these markets. The operating profit from Continental Europe amounted to MSEK -80 (-50).

Since the Bank's operating profit currently, to a large extent, is affected by transformational expenses, initial costs related to Continental Europe and accounting effects from intangible assets primarily related to the acquisition of Bank

[1]Reported operating profit MSEK 439 MSEK (77) adjusted for transformational expenses MSEK -54 (-95), effect from Continental Europe MSEK -80 (-62), depreciation of surplus values according to plan MSEK -35 (-36) and for the fourth quarter 2022 an adjustment was also made for the impairment of intangible assets relating to Lilienthal Finance Ltd corresponding to MSEK -201.

Norwegian, management also monitors the business based on an adjusted operating profit where the effects of these costs, and other non-recurring items, is excluded. The adjusted operating profit amounted to MSEK 608 MSEK (415)[2].

PARENT COMPANY RESULT COMPARED TO THE FIRST QUARTER 2022

Operating profit amounted to MSEK 300 (95). The increase is primarily explained by the consolidation of Bank Norwegian into the parent company via the legal merger as of 30 November 2022 and by growing lending.

Net interest income amounted to MSEK 1 682 (449). Net interest income primarily increased given the consolidation of Bank Norwegian and by growing lending.

Operational expenses amounted to MSEK -381 (-195). The increase is primarily driven by the consolidation of Bank Norwegian.

Depreciation and impairment of intangible assets related to transaction surplus values amounted to MSEK -153 (0). These expenses also increased given the consolidation of Bank Norwegian.

Credit losses amounted to MSEK -795 (-118), corresponding to 3,9 per cent (1,7) of average lending and primarily increased given the consolidation of Bank Norwegian and due to increased macro related provisions.

[2] Reported operating profit MSEK 439 MSEK (273) adjusted for transformational expenses MSEK -54 (-56), effect from Continental Europe MSEK -80 (-50), depreciation of surplus values according to plan MSEK -35 (-36).

Risks and internal control

RISKS AND UNCERTAINTIES

The first quarter of 2023 has continued to be characterized by high inflation, increased living costs and falling real wages. The pressures on households remain high and the risk of increased credit losses is unchanged despite glimmers of light such as continued strong employment rates. Cyber security remains an area of increased risk from a global perspective where the number of sophisticated cyber-attacks is increasing.

During the first quarter, work related to the further development of the Bank's framework for Governance, Risk Management and Compliance (GRC) has continued within, and between, the legal entities. As a result of worrying developments in the American market as a result of, among other, Silicon Valley Bank as well as Credit Suisse in Europe, Nordax has also reviewed its routines for governance and control of interest rate risk and liquidity risk management. Nordax concludes that the bank continues to have good management, monitoring and control over its financial risks.

The Group's strategy, appetite and limits for each risk and relevant strategy, as well as roles and responsibilities, for managing the risks are established in the Bank's overall policies for governance, risk management and risk appetite framework.

The Group is exposed to both credit risks and other financial risks such as market risk and liquidity risk. The Group is also exposed to operational risks such as IT risks, process risks and external risks, regulatory compliance risks, financial crime risks and business risks.

INTERNAL CONTROL

Nordax Group has established independent functions for risk control and regulatory compliance - Group Risk Control and Group Compliance - in accordance with the Financial Supervisory Authority's regulations and general advice regarding governance, risk management and control in credit institutions (FFFS 2014:1) and the European Banking Authority's guidelines for internal governance. Group Risk Control and Group Compliance are led and coordinated by the board appointed Chief Risk Officer (CRO) and Chief Compliance Officer (CCO). Furthermore, during the first quarter, the group has established an independent control function for information security - Information Security Function. The work is led and coordinated by the Chief Information Security Officer (CISO). The independent control functions report directly to the board and CEO. The Group's internal audit function is outsourced to EY.

[1] Whereof received interest 2,353 MSEK (1,584 MSEK) and paid interest 461 MSEK (419 MSEK).
[2] Tier 1 capital issued refers to the cash received less transaction costs and interest paid.

Cash and cash equivalents is defined as lending to central banks excluding rix certificates and lending to credit institutions. Pledged cash and cash equivalents under Note 9 are available to Nordax in connection with monthly settlement under financing agreements and are therefore defined as cash and cash equivalents due to being pledged for a maximum of 30 days and therefore short-term.

Share capital amounts to 72 676 783 shares of the same type with quota value of SEK 1.
[1]An inter-company loan of MSEK 202 has in December 2022 converted to unconditional shareholder contribution.

Notes

Amounts stated in the notes are in MSEK unless otherwise stated. The information on pages 1–7 is an integrated part of this interim report.

Note 1 General information

Nordax Bank AB (publ) (Corporate Identity Number 556647-7286), with its registered office in Stockholm, Sweden is a wholly owned subsidiary of Nordax Group AB (Corporate Identity Number 556993-2485), with its registered office in Stockholm. Nordax Group AB is owned by Nordax Holding AB (publ), which is primarily owned directly and indirectly by Nordic Capital Fund VIII, Nordic Capital Fund IX and Sampo Oyi. The Nordax Group includes Svensk Hypotekspension AB with their subsidiaries, Bank Norwegian ASA a branch to Nordax Bank (publ) as well as a number of direct subsidiaries of Nordax Bank AB (publ).

The Group's business is to conduct lending to the general public in the form of personal loans, mortgage loans, equity release mortgages and credit cards in Sweden, Norway, Denmark, Finland, Germany, and Spain. Some of the subsidiaries' operations involve the acquisition of loan portfolios originating from Nordax Bank AB (publ) and Svensk Hypotekspension AB for the purpose of raising loan or bond financing. Some of these companies are dormant and currently do not conduct any operations.

Note 2 Accounting and measurement policies

The interim report has been prepared according to IAS 34, Interim Financial Reporting. The consolidated accounts for the Nordax Group have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, together with the Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), the Swedish Financial Accounting Standards Council's recommendation RFR 1, Supplementary Accounting Regulations for Groups, and the Swedish Financial Supervisory Authority's regulations and guidelines FFFS 2008:25.

The interim report for the parent company has been prepared in accordance with the Swedish Annual Accounts Act. The Swedish Financial Reporting Board's Recommendation RFR 2 Accounting for Legal Entities has also been applied.

Changed accounting policies that have applied as of 2023
During the period, no accounting standards were added, which have been published but not yet applied, with any significant effect on the Group's financial reports or on capital adequacy and large exposures.

As from Q1 2023 the Group presents all costs related to the distribution of credit cards and marketing costs to the Norwegian Air Shuttle Group within Other operating expenses. Previous the majority was included in General administrative expenses.

General administrative expenses
General administrative expenses refer to employee benefit expenses and other administrative expenses, such as IT expenses, external services (audit, other services), costs of premises, telephone and postage, and other expenses.

As from Q1 2023 the Group presents Depreciation and impairment of transaction surplus values on a separate row in Income Statement and historic figures are reclassified.

The report has otherwise been prepared in accordance with the same accounting principles and calculation methods that were applied in the annual report for 2022.

Note 3 Significant accounting estimates

Presentation of consolidated financial statements in conformity with IFRS requires the executive management to make judgments and estimates that affect the recognized amounts of assets, liabilities and disclosures of contingent assets and liabilities as of the reporting date as well as the recognized income and expenses during the reporting period. The executive management continuously evaluates these judgments and estimates, including assessing control over investment funds, the fair value of financial instruments, provisions for credit impairment, impairment testing of goodwill and deferred taxes.

Post-model expert credit adjustments to the credit impairment provisions continue to be necessary, given the geopolitical and economic uncertainties. Details of these are found in Note 12.

Beyond that, there have been no significant changes to the basis upon which the critical accounting judgments and estimates have been determined compared with 31 December 2022.

Note 4 Financial risk management

GROUP

MSEK	2023-03-31	2022-12-31
Credit risk exposures relate to the balance sheet as follows:		
Lending to central banks	1,402	3,723
Lending to credit institutions	2,775	3,332
Lending to the general public	93,734	88,756
Bonds and other fixed-income securities	13,771	13,608
Total	111,682	109,419

Assets above are listed at their recognized value as per the balance sheet. Lending to central banks, lending to credit institutions and bonds and other interest-bearing securities relates to exposures to, among others, Swedish and Norwegian counterparties. The geographical risk concentrations for lending to the general public are set out in the table below.

The liquidity and funding information is disclosed in accordance with Chapter 5, Section 2 of the Swedish Financial Supervisory Authority's regulations regarding management of liquidity risks in credit institutions and investment firms (FFFS 2010:7).

Merger with Bank Norwegian

The acquisition of Bank Norwegian ASA was financed by Nordax Holding AB (publ) via new share issue of SEK 9.7 billion, new issuance of SEK 1.4 billion in Additional Tier 1 capital SEK 650 million Tier 2 capital, which was invested by external investors. Nordax Group AB issued corresponding instruments and amounts which was invested by Nordax Holding AB (publ). Nordax Bank AB issued the corresponding amount and instrument was invested by Nordax Group AB. Nordax Bank also financed the acquisition via non-cash issuance of Bank Norwegian shares with a value of SEK 4.4 billion, unconditional shareholder contribution of SEK 1 billion, conditional shareholder contribution of SEK 8.4 billion and a loan from Nordax Holding AB of SEK 200 MSEK. At the time of the legal merger, the conditional shareholder contribution was converted to unconditional shareholder contribution. In December 2022 the loan from Nordax Holding, including accrued interest, was also converted to unconditional shareholder contributions of SEK 203 million.

The consolidated situation's own funds include the abovementioned capital instruments as well as Additional Tier 1 capital of SEK 76 million and Tier 2 capital of SEK 602 million issued by Nordax Bank AB.

On 30 November 2022, the merger between Nordax Bank AB and Bank Norwegian ASA has been completed. The merger was implemented with Nordax as the surviving company and Bank Norwegian as the transferring company, with the operations of Bank Norwegian being continued through Nordax's Norwegian branch, the legal name of which is Bank Norwegian, a branch of Nordax Bank AB (publ) (the "Branch"). The capital requirements for the consolidated situation did not change as result of merger, however, the capital requirement for Nordax Bank AB has increased due to replacing Nordax Bank AB shares in Bank Norwegian by the assets of Bank Norwegian, as well as the excess value of lending portfolio that arose in connection with the acquisition.

Information on the consolidated situation

The top company in the Consolidated Situation is Nordax Holding AB (publ). The following companies are included in the Consolidated Situation when calculating capital requirements: Nordax Holding AB, Nordax Group AB, Nordax Bank AB (publ), Noba Sverige AB, Nordax Sverige 5 AB (publ), Nordax Sweden Mortgages 1 AB, Svensk Hypotekspension AB and affiliated subsidiaries Svensk Hypotekspension Fond 2 AB, Svensk Hypotekspension Fond 3 AB (publ), Svensk Hypotekspension Fond 4 AB (publ) and Svensk Hypotekspension 5 AB (publ), in addition to Lilienthal Finance Ltd.

IFRS9 transitional arrangement

Nordax has notified the Swedish FSA that the bank has decided to use the transitional arrangement regarding IFRS 9 which entail a gradual phasing-in of credit provisions that arise during the transition to IFRS 9 and credit provisions for stages 1 and 2 until December 31, 2019. In 2022, 25% of the effects was added back to Tier 1 capital, from 2023, the effects have been phased in completely and there will be no transitional arrangements applied for these credit provisions.

Nordax also applies the transitional rules for credit provisions for stages 1 and 2 that arose after December 31, 2019. In 2022, 75% of the negative effects of these credit provisions was added back to CET1 capital. In 2023, the add-back decreased to 50%. Due to the lower add-back arrangements in 2023, the amount decreased to SEK 232 million (358).

Combined buffer requirement

The combined buffer requirement for the Consolidated Situation consists of the capital conservation buffer requirement and the countercyclical capital buffer requirement. The capital conservation buffer requirements amounts to 2.5 percent of the risk-weighted exposure amount. The countercyclical capital buffer is weighted based on geographical requirements. For Finland and Spain the requirement amounted to 0%, for Germany the requirement increased from 0% to 0,75%, for Norway and Denmark the requirement increased from 2% to 2,5% while the requirement was 1% for Sweden.

Due to the acquisition of Bank Norwegian in November 2021, a systemic risk buffer was added. However, as a result of merger through absorption, the requirement for systemic risk buffer was abolished because the Norwegian systemic risk buffer only applies to foreign institutions with Norwegian risk exposure amount of NOK 32 billion, Nordax's Norwegian risk exposure amount falls below that threshold.

The Norwegian Ministry of Finance has requested to the European systemic risk board, ESRB, to lower threshold NOK 32 billion to NOK 5 billion as of December 31 2023. The request was sent to the ESRB in December 2022 which, in March 2023, the ESRB recommends that national regulatory authorities to recognize and reciprocate the new threshold within three months from the recommendation has been published in the EU's official journal. If the Swedish Financial Supervisory Authority would reciprocate the recommendation the Norwegian systemic risk buffer requirements would be applicable for Nordax Norwegian exposures from and including 31 December 2023. The Systemic risk buffer requirement amounts to 4.5% of the risk exposure amount in Norway, which for Nordax corresponds to approximately 1% of the total risk exposure amount.

[1] In November 2021, Nordax Bank AB, Nordax Group AB and Nordax Holding AB issued Additional Tier 1 capital instrument amounting MSEK 1,400. At the time of the merger the bank has taken over Bank Norwegian's Additional Tier 1 capital previously issued on solo-level amounting NOK 125 million. During the period, SEK 76 million of these were qualified to be included the capital base of the Consolidated Situation.

[2]Nordax Bank has previously issued Tier 2 capital, however, during the merger the bank has taken over Bank Norwegian's subordinated loan. These could only be included in the capital base of the Consolidated Situation with the part required to cover the bank's capital requirements. As of 31 March 2023, the eligible amount of Tier 2 capital to be included has amounted to SEK 602 million. During October and November 2021, Nordax Bank AB, Nordax Group AB and Nordax Holding AB has issued additional amount of Tier 2 capital of SEK 650 million.

[3]Available CET1 capital that can be used as buffer after deducting CET1 capital required to fulfill the requirements under Pillar 1 and the capital conservation buffer requirement given as a percentage of REA.

[4]Nordax Bank AB and its consolidated situation applies the transitional arrangements in accordance with article 473a of Regulation (EU) no. 575/2013 with application of paragraphs 2 and 4. Template "Final report on the guidelines on uniform disclosure of IFRS 9 transitional arrange-ments", EBA/GL/2018/01 can be read at the end of the report.

[5] The capital requirement amounts to 8% of the risk exposure amount in accordance with Regulation (EU) No 575/2013.

Internal capital requirement

As of 31 March 2023, the internally assessed capital requirement for Consolidated Situation amounted to SEK 928 million (2,475 million). The decrease in the capital requirements was mainly due to a consequence of the internal capital adequacy assessment process which was carried out during the first quarter of 2023 where Finansinspektionen's assessment methods and requirements have been applied for all risks. As a result of the assessment process, Nordax does not include the Pillar 2 requirement that Bank Norwegian received from the Norwegian FSA in 2020. As of 31 December 2022, the Pillar 2 requirement attributable to the Norwegian FSA's decision amounted to SEK 1,646 million.

Nordax Bank's internal capital adequacy requirements are assessed using internal models for economic capital. The Bank has not received a Pillar 2 guidance as Swedish FSA has not yet conducted its Supervisory Review and Evaluation process.

Total capital requirement

The total capital requirement for the period amounts to SEK 9,630 million (SEK 10,683 million) and is entirely covered by CET1 capital. The total capital requirement has decreased primarily due to the decrease of Pillar 2 requirements. Pillar 1 requirements and buffer requirements has increased during period.

Leverage ratio

Leverage ratio is a non-risk-based capital measure where Tier 1 capital is set in relation to the total assets with adjusted derivatives as well as off-balance sheet commitments recalculated with conversion factors. As of 31 March 2023, the Consolidated Situation's leverage ratio was 10,36% (10,41%), which is well in excess of the 3% requirement.

Information on liquidity risk

Nordax defines liquidity risk as the risk of failing to fulfill payment obligations at maturity without a significant increase in the cost of obtaining means of payment. Nordax uses asset-backed borrowing in which parts of the asset portfolios are pledged as collateral for the loans. The long-term strategy is to match lending assets with the maturities of liabilities.

The strategy strives to achieve a diversified funding platform comprising equity, subordinated debt, securitizations ("ABS"), credit facilities provided by banks, deposits from the public and senior uncovered bonds.

The goal is to use funding sources that meet the following criteria:

- Provide a high degree of matching of currencies and interest periods as well as maturities between assets and liabilities.
- Offer diversification in terms of markets, investors, instruments, maturities, currencies, counterparties, and geography.
- Give a low liquidity risk and offer a strong possibility of refinancing at maturity, as evidenced by price stability, regularity of issuance and a broad investor base.
- Provide access to relatively large volumes, to meet the funding requirements of a growing balance sheet.

The Group has an independent function for liquidity risk control. The function reports directly to the Board of Directors and CEO. Liquidity risk is reported at each meeting of the Board of Directors. Cash flows that are expected to arise from the liquidation of all assets, liabilities and off-balance sheet items are calculated. Key ratios from the Balance Sheet (such as liquidity coverage ratio, net stable funding ratio and survival horizon) are calculated and monitored over time to illustrate the financial structure and the Group's liquidity risk. Liquidity risk is measured monthly under various scenarios and events (such as changes in market interests and changed cash flows) and specified separately and collectively. Measurement and reporting of liquidity risk is also performed by the Treasury function on a daily basis, which reports to the Company's management.

The contingency plan contains a clear division of responsibilities and instructions on how the Group should respond in a liquidity crisis. The plan specifies appropriate actions to manage the consequences of various types of crises and contains definitions of events that trigger and escalate the contingency plan.

The consolidated situation's liquidity reserves as of 31 March 2023 amounts to SEK 17,6 billion (SEK 20,3 billion). Of these investments, 43,3% (34,8%) are invested in covered bonds, 13,9% (14,6%) in Nordic credit institutions and 8,0 % (18,3 %) invested with central banks. The remaining balances are invested in interest bearing securities issued by central governments, municipalities and supra nationals. The credit assessment of these investments is generally high and therefore have high credit rating, between AAA and AA, from leading credit rating agencies. As a rule, Norwegian municipalities do not have a credit rating, but are considered from risk management and risk measurement view as AA assets in line with the Norwegian FSA recommendation, which corresponds to a credit rating lower than the Norwegian government. The average maturity of the liquidity reserve amounts to 478 (391) days.

As of 31 March 2023, Nordax consolidated situation's Liquidity Coverage Ratio (LCR) was 223,5% (253,2%). The net stable funding ratio (NSFR) was 119,4% (122,0%), calculated in accordance with the definition in Regulation (EU) No. 575/2013.

As of 31 March 2023, Nordax's consolidation situation funding sources comprises of SEK 2,197 million (2,250 million) financing via the asset backed securities market (securitized), SEK 5,733 million (6,166 million) in corporate bonds, SEK 9,741 million (9,739 million) financing against pledges with international banks, and SEK 80,054 million (77,104 million) of retail deposits.

1 Fair value is deemed to be the same as the carrying amount, as these are of a short-term nature.
2 The measurement includes significant observable and non-observable inputs.
3 Fair value data for issued securities and debenture loans are based directly or indirectly on quoted prices.

Calculation of fair value

Valuation technique for measuring fair value – level 1.

The fair value of financial instruments traded in an active market (e.g., financial assets held for trading and available-for-sale financial assets) is based on quoted market prices on the balance sheet date. A market is considered active if quoted prices from a stock exchange, broker, industry group, pricing service or monitoring authority are readily and regularly available and these prices represent real and regularly occurring arm's length market transactions. The quoted market price used for the Group's financial assets is the current purchase price.

Valuation techniques for measuring fair value – level 2.

- Fair value for bonds is measured, as in level 1, from market prices, with the difference that the prices are not considered from an active market. The market price derived in this case from buy and sell position prices, but regular trading does not take place in the bond. If market prices are missing, the value is calculated by discounting expected cash flows. For discounting, the current market interest rate on securities issued by similar issuers.

- The fair value of currency futures contracts is measured as the present value of future cash flows based on currency futures rates at the balance sheet date.

Fair value measurement using material, unobservable inputs – level 3.

In those cases, one or more essential inputs are not based on observable market information the instrument is classified as level 3. The table below shows the financial instruments valued at fair value, regarding how the classification has been constructed by the fair value hierarchy.

Nordax has a holding of unlisted shares in Stabelo AB, Vipps AB and VN Norge AS that is valued at fair value based on unobservable inputs.
As of 31 March 2023, the value has been determined based on the issue price at the latest new issue which was in May 2022. Nordax subscribed for its pro rata share in the new issue, the value of which has been determined based on the issue price at the latest new issue. Fair value on shares in VN Norge AS has as per 2023-03-31 been calculated based on the shares price for Visa Inc, foreign exchange USD/NOK, a liquidity discount as well as a conversion rate.

The table below shows the changes that have occurred in relation to level 3 instruments:

Unlisted shares	MSEK
Opening balance 1 January 2022	**154**
Transfers from level 2	-
Acquistions	19
Currency change	1
Recognized in income statement	-10
Sales	-

Currency change	-1
Recognized in income statement	2
Sales	-
Losses (-) recognized in other comprehensive income	-
Profits (+) recognized in other comprehensive income	-
Closing balance 31 March 2023	**169**

- The value of lending to the general public has been measured based on observable market data by discounting the expected future cash flows of the assets to present value using a discount factor. The expected future cash flows have been based on the size of the portfolio at the end of the balance sheet date and an expected future cash flow on the maximum maturity of the portfolio.

Note 8 Operating segments

Segment information is presented based on the chief operating decision-maker's perspective, and the segments are identified based on the internal reporting to the CEO, who is identified as the chief operating decisionmaker. Profit/loss that cannot be attributed to a single segment is allocated using a distribution matrix according to internal principles that management believes to provide a fair allocation to the segments. The chief operating decision-maker mainly follows the income concept of operating income. The business models are to conduct cross-border banking activities in Sweden, Norway, Denmark, Finland, Germany, and Spain. Bank Norwegian is included in each country segment. Activities are also conducted in the form of SHP's lending of equity release mortgages.

Credit losses – lending to the general public[1]			
Steg 1	-134	-123	25
Steg 2	-27	-166	0
Steg 3[2]	-634	-346	-143
Credit losses for the period, net	-795	-635	-118

[1] Relates to credit losses in the Parent Company attributable to retail lending, including the intra-Group loan issued by Lilienthal Finance Ltd in Q4 2022.
[2] The Parent Company includes SEK 79 million attributable to Lilienthal Finance Ltd in Q42022.

Collateral received

Part of Nordax's loan portfolio includes mortgages and equity release mortgages (via the subsidiary SHP), and this lending is secured by mortgages on real property or rights in co-op apartments. The valuation of collateral is part of Nordax's credit origination process and collateral values are continuously monitored through updated valuations.

Nordax's policies for received collateral have not significantly changed during the period and there has been no significant change in the quality of collateral. As at March 31, 2023, Nordax had 109 (85 per December 31, 2022) mortgages with a total volume of SEK 186 million (149) and 1 (3) equity release mortgages with a total volume of SEK 0 million (3) that were classified as being in Stage 3.

Sensitivity analysis

As a general rule, deteriorating macroeconomic development in society leads to higher customer losses. Similarly, improvements in the developments result is lower customer losses.

In calculating the future need for customer loss reserves, an assessment is made of the probability of various future scenarios occurring. This probability-weighted outcome is the amount recognized as the customer loss reserve. The table below shows how the loan loss reserves would be affected if it was based respectively on a negative and a positive scenario.

The sensitivity analysis is based on analysis of the combined sensitivity of the ECL models applied within the group. For Nordax loans the Negative scenario entails increasing the likelihood of the Negative macro scenario from a base assumption of 5% to 30% (Currently 25% is applied which is unchanged since 2022-12-31). For Bank Norwegian loans the Negative scenario is based on applying 100% weighting of the pessimistic scenario (currently weighting is 32.5% Base, 30% optimistic and 37.5% pessimistic which is the same as 22-12-31). For Nordax loans the Positive scenario entails reducing the likelihood of the negative macro scenario to 1% and for Bank Norwegian applying 100% weighting of the optimistic scenario. Out of the ECL impact from the negative scenario of 215 MSEK (192), 109 MSEK (91) relate to Nordax loans and 104 MSEK (101) to Bank Norwegian loans.

All pledged assets are for the Group's asset related funding operations; securitization and funding with collateral with international banks and derivative contracts. Nordax Bank AB (publ) has issued a letter of support to Lilienthal Finance Ltd that runs annually.

Note 14 Transactions with related parties

No new intra-group loan agreement has been entered into during the first quarter of 2023.

In March 2023 Nordax Bank AB holds a nominal amount of MSEK 54 in a fixed interest bond in SHP Fond 4 with maturity in January 22, 2024.

In regard to the legal merger between Nordax Bank AB (publ) and Bank Norwegian ASA all intra-group receivables and liabilities ceased and at the same time Nordax Bank AB (publ) acquired a receivable on Lilienthal Finance Ltd as well as a letter of support.

The table below shows transactions with related parties from Nordax Bank AB's (publ) perspective.

Note 15 Important events after the balance sheet date

During April, Nordax concluded the sale of an NPL portfolio in Finland with a gross lending volume of SEK 545 million. The sale resulted in a positive impact on operating profit.

The process, initiated during Q1, of changing Nordax' company name to NOBA Bank Group AB (publ) continued. The Swedish FSA has granted the necessary approval in order to make the change in the articles of association and the Swedish Companies Registration Office is expected to register the change of name during June of 2023.

The Norwegian Ministry of Finance announced 14 April that it had requested the European Systemic Risk Board, ESRB, to lower their recommended materiality threshold for application of the Norwegian Systemic Risk Buffer from NOK 32 billion in REA to NOK 5 bn, relating to Norwegian exposures, applicable as of 31 December 2023. The request was sent to the ESRB in December 2022 and in March 2023 ESRB followed the Ministry's request, thus recommending national authorities to reciprocate the new threshold within three months of its publication in the Official Journal of the EU. If the Swedish FSA reciprocates the recommendation, Nordax will thus be required to hold a Systemic Risk Buffer for Norwegian exposures. The Buffer would for Nordax amount to approximately 1% of total Risk Exposure Amount and would come in force 31 December 2023.

On 1 April 2023 Merete Gillund, previously part of the Group management team and head of Innovation and Strategic Projects, replaced Klara-Lise Aasen as branch manager.

During April SHP, through the subsidiary Svensk Hypotekspension 5 AB (publ), obtained a new bilateral secured financing of MSEK 250 with an international bank.

Events relating to cooperation with the Norwegian Air Shuttle group

Nordax Norwegian branch, Bank Norwegian, has, as a precautionary measure to protect its intellectual property, on the 23rd of May filed a lawsuit requesting a declaratory judgement with the Oslo District Court against companies within the Norwegian Air Shuttle group to confirm our right to use the Bank Norwegian brand.

Bank Norwegian was established in 2007 and today delivers a wide range of innovative and popular products and services to about 1,55 million unique customers across the Nordics. In 2022, Bank Norwegian became part of Nordax Bank. Consequently, according to Norwegian law, Bank Norwegian is required to clearly communicate that it is a part of Nordax Bank. The airline Norwegian Air Shuttle disagrees with our right to market our own name, Bank Norwegian, and objects to us fulfilling our legal requirements to clearly communicate that Bank Norwegian is a part of Nordax Bank. In order to confirm our ability to continue to deliver and develop industry-leading services to our customers under our own brand name, and doing so in continued compliance with Norwegian law, we have initiated the above-mentioned lawsuit. Our brand name is an integral and foundational part of our relationship with our customers, and we are committed to protecting it.

The group has during May also decided to initiate a graphical re-design of the Bank Norwegian brand, across all markets. The new design is planned to be implemented during the second half of 2023 and is expected to result in one-off costs of circa 100 MNOK mainly related to impairment of certain, by Bank Norwegian, pre-paid intangible rights relating to licensing of the current design. The impairment of the intangible rights will not have any impact on the capital base, as they are already deducted.

Given the initiated legal proceedings and the planned graphical re-design, the bank also plans, during the second half of 2023, to initiate a strategic review of the cooperation with the Norwegian Air Shuttle group relating to credit cards. As the Nordic region's largest specialist bank with a continuous growth agenda, we value predictability and flexibility that enable us to offer the best possible products and services to our customers.

Definitions

The Group considers the key figures to be relevant to users of the financial report as a complement in assessing the financial performance of the Group.

Adjusted operating profit
Reported operating profit adjusted for transformational expenses mostly connected with the integration of Bank Norwegian and the ongoing change of core banking system within Nordax, initial effects from the expansion in Continental Europe and depreciation of intangible assets related to the accounting treatment of allocated surplus values from previous acquisitions.

Average loan portfolio
The average of lending to the general public at the beginning of the period and the end of the period.

Cost to income ratio % total operating expenses excl. depreciation and impairment of intangible assets related to transaction surplus values
Total operating expenses excluding depreciation of intangible assets related to the accounting treatment of allocated surplus values from previous acquisitions in relation to total operating income.

Cost to income ratio % operational expenses
General administrative expenses plus depreciation and impairment of property, plant and equipment and other intangible assets in relation to total operating income.

Cost to income ratio % operational expenses excl. transformational expenses
General administrative expenses plus depreciation and impairment of property, plant and equipment and other intangible assets excluding transformational expenses mostly connected with the integration of Bank Norwegian and the ongoing change of core banking system within Nordax in relation to total operating income.

Credit loss level
Net credit losses as a percentage of average lending to the public.

Common Equity Tier 1 capital[1]
Shareholders' equity excluding proposed dividend, deferred tax assets, intangible assets and certain other regulatory adjustments defined in Regulation (EU) No 575/2013 (CRR2).

Common Equity Tier 1 capital ratio[1]
Common Equity Tier 1 capital as a percentage of risk exposure amount.

Interest Rate Margin
Net interest income for the period calculated for the full year, in relation to average total assets.

Leverage ratio[1]
Tier 1 capital as a percentage of total assets including off-balance-sheet items with conversion factors defined in Regulation (EU) No 575/2013 (CRR2).

Liquidity Coverage Ratio (LCR)[1]
Liquidity Coverage Ratio (LCR)[1] High-quality liquid assets in relation to the estimated net cash outflows over the next 30 calendar days, as defined in Commission Delegated Regulation (EU) 2015/61 and Regulation (EU) No 575/2013.

Liquidity reserve
A separate reserve of high-quality liquid assets that can be used to secure the company's short-term ability to pay for losses or in the event of reduced access to commonly available funding sources.

Net Stable Funding Ratio (NSFR)
Measures and monitors the relationship between available stable funding and required stable funding over a one-year period.

Operating profit per share
The operating profit for the year divided by the average number of outstanding shares.

Operational expenses
General administrative expenses plus depreciation and impairment of property, plant and equipment and other intangible assets

Other Tier 1 capital[1]
Subordinated liabilities that are perpetual and meet certain conditions to be counted as Tier 1 capital when calculating the size of the capital base.

Own funds[1]
The sum of Tier 1 and Tier 2 capital.

Return on assets
Net profit for the period in relation to total assets.

Return on equity excl. intangible assets
Net profit for the period in relation to total equity after deduction of intangible assets.

Risk exposure amount[1]
Total assets and off-balance sheet items, weighted in accordance with capital adequacy regulation for credit and market risks. Operational risks are measured and added as risk exposure amount.

Tier 1 capital[1]
Common Equity Tier 1 capital plus qualifying forms of subordinated loans.

Tier 1 capital ratio[1]
Tier 1 capital as a percentage of the risk exposure amount.

Tier 2 capital[1]
Mainly subordinated loans that do not qualify as Tier 1 capital.

Total capital ratio[1]
Total own funds as a percentage of the risk exposure amount.

[1] These are reported with respect SFSA´s regulations and general recommendations see note 5, capital adequacy analysis.

Signature of the Chief Executive Officer

The Chief Executive Officer declares that this financial report for the period 1 January 2023 through 31 March 2023 provides a fair overview of the parent company's and the group's operations, their financial position and results and describes material risks and uncertainties facing the parent company and the group.

Stockholm May 23, 2023

Jacob Lundblad
Chief Executive Officer
