INTERIM REPORT
JANUARY-JUNE 2024

B

A

YET ANOTHER STRONG QUARTER

APRIL-JUNE 2024 (COMPARED WITH APRIL-JUNE 2023)

- The loan portfolio amounted to SEK 117,073 million (101,488)
- Operating income amounted to SEK 2,398 million (2,078)
- The C/I ratio was 29.2% (37.8), and the adjusted C/I ratio* was 24.4% (31.3)
- The credit loss level was 3.2% (3.4)
- Operating profit amounted to SEK 765 million (454), and adjusted operating profit** amounted to SEK 900 million (637)
- Net profit for the period amounted to SEK 578 million (334), and earnings per share was 7.1 SEK (4.2)
- Return on equity, excluding intangible assets and Tier 1 capital instruments, was 18.7% (12.2)
- The Common Equity Tier 1 capital ratio was 13.37% (14.02) and the total capital ratio was 17.19% (17.71)

JANUARY-JUNE 2024 (COMPARED WITH JANUARY-JUNE 2023)

- The loan portfolio amounted to SEK 117,073 million (101,488)
- Operating income amounted to SEK 4,674 million (4,031)
- The C/I ratio was 28.9% (36.6), and the adjusted C/I ratio* was 24.6% (31.1)
- The credit loss level was 3.6% (3.5)
- Operating profit amounted to SEK 1,300 million (893) and adjusted operating profit** amounted to SEK 1,548 million (1,218)
- Net profit for the period amounted to SEK 983 million (690), and earnings per share was 12.2 SEK (8.6)
- Return on equity, excluding intangible assets and Tier 1 capital instruments, was 16.3% (12.9)
- The Common Equity Tier 1 capital ratio was 13.37% (14.02) and the total capital ratio was 17.19% (17.71)

“WE ARE PURPOSEFULLY STRIVING TO POSITION OURSELVES IN THE MARKET AMONG THE MAJOR EUROPEAN SPECIALIST BANKS.”

JACOB LUNDBLAD / CEO

KEY TAKEAWAYS FROM Q2

- In April, NOBA received a credit rating from Nordic Credit Rating that confirmed its previous rating of BBB, stable outlook.
- In April, NOBA agreed to securitize a portfolio of non-performing loans in Sweden. The securitization was completed on July 2. The portfolio had a gross volume of approximately SEK 700 million and the transaction had a neutral impact on profit and own funds in the third quarter. This transaction creates additional tools and flexibility related to the management of non-performing loans and the associated impact on capital.

THIS IS NOBA

We focus clearly on developing financial services that correspond to needs that are not fully met by the major banks. We have become experts at understanding our customers, which allows us to help them think through financial choices properly, through responsible lending and high availability. Consequently, we act as a flexible complement to the major banks, and we are convinced that offerings customized to specific customer segments are here to stay – one size does not fit all.

With a diversified offering through our three brands – Nordax Bank, Bank Norwegian and Svensk Hypotekspension – and about two million customers, we have the size, knowledge and scalability required to enable financial health for more people. NOBA provides specialized, customer-centric financial offerings that are sustainable for the individual, the bank and society at large, today and in the future. NOBA Bank Group AB (publ) (“NOBA”) is owned by Nordic Capital Fund IX, Nordic Capital Fund VIII and Sampo. The NOBA group has approximately 640 employees and is active in eight markets.

As of June 30, 2024, lending to the public amounted to SEK 117,073 million, and deposits amounted to SEK 107,352 million.

THE BANK FOR THE NEW NORMAL

A DIGITAL FRONTRUNNER

THE LEADING PROVIDER OF
EQUITY RELEASE (REVERSE
MORTGAGES)

CONSOLIDATED POSITION

OUR STRONGEST QUARTER TO DATE

With our robust credit scoring capabilities as the foundation, our focus in the first half of 2024 was to keep growing. We are purposefully striving to position ourselves in the market among the major European specialist banks. Through our strong offering, we fulfill a need among customer groups that the market does not currently address, and an increasing number of customers are requesting and using our competitive products. In the second quarter, our operating income grew by 15 percent compared with the second quarter of 2023. Profit from underlying operations grew to SEK 900 million, compared with SEK 637 million in the second quarter of the previous year, representing a 41 percent increase. Our strong emphasis on achieving high efficiency is yielding positive results. This is evident in the decreasing cost-to-income ratio, which stood at 24.4 percent based on adjusted figures, similar to the first quarter. Our progress in recent years and the levels we have achieved so far would have been astonishing twenty years ago when we began our journey.

“WE ARE PURPOSEFULLY STRIVING TO POSITION OURSELVES IN THE MARKET AMONG THE MAJOR EUROPEAN SPECIALIST BANKS. WITH OUR ROBUST CREDIT SCORING CAPABILITIES AS THE FOUNDATION, OUR FOCUS IN THE FIRST SIX MONTHS WAS TO KEEP GROWING THROUGH A STRONG AND SOUGHT-AFTER OFFERING, WHICH WAS ALSO REFLECTED IN OUR PERFORMANCE.”

FINANCIAL HEALTH FOR MORE PEOPLE

In parallel with increased financial growth, several initiatives were implemented during the quarter to strengthen and position NOBA by taking additional steps toward our mission of enabling financial health for more people. We also presented our 2024 Relationship Report, in which we proactively raised important issues related to people’s relationships with money, housing and each other. The report includes expert comments

from the Swedish Gender Equality Agency and forms part of a broader initiative related to our work on responsibility for financial health. Another example of our initiatives is our continued participation in the public debate on what measures will be relevant to individuals and society concerning over-indebtedness. Following our ethical lending guidelines, we do our best to ensure that no one is granted a credit they cannot repay.

We also continued our efforts to strengthen the visual identity of our Bank Norwegian brand during the quarter. We launched our new blue credit card, mainly in the Swedish, Norwegian, Finnish and Danish markets. In the near future, approximately 1.2 million new and old customers will be able to benefit from the card’s value-adding benefits in a new package.

NOBA 20 YEARS – A TRANSFORMED COMPANY

Twenty years have now passed since I first had the honor of setting foot through the front doors at what was then called Nordax Finans. I was hired as employee number fifteen in a company that ended the year with a SEK 665 million credit portfolio. This should be compared with the current credit portfolio, which amounts to SEK 117 billion, and should be considered in the context that we operate in low-risk countries where customers have excellent repayment capacity. This incredible development was made possible due to the clear and growing need for our products and skills, both in the Nordic region and the rest of Europe.

It has been an exciting journey through financial crises and a pandemic, but also booming economies and happy days. NOBA has evolved from a small company with a single product to one of the market-leading specialist banks in Europe, with an extensive product range. This advancement was possible through hardwork and expertise in lending, effective distribution channels and a scalable digital platform.

We thank you – our customers, investors and owners – for your confidence in us. We promise to continue our best endeavors to meet and exceed your expectations. I am very proud of our collective accomplishments and look forward with confidence to the next twenty years.

JACOB LUNDBLAD
CEO NOBA

KEY FIGURES FOR THE GROUP

In addition to the financial measures defined by IFRS, NOBA presents certain alternative performance measures in this interim report that are not defined according to IFRS, but which provide investors and management with valuable supplementary information for evaluating NOBA's financial development and position. These measures, which are

explained on pages 63 -64 of the interim report, are not necessarily comparable with performance measures with similar names used by other companies. They should also not be regarded as a substitute for the performance measures for financial reporting that are prepared according to IFRS.

HIGHLIGHTS IN 2023 AND 2024

SIGNIFICANT EVENTS DURING THE SECOND QUARTER

On June 3, NOBA issued senior unsecured bonds of SEK 500 million to Swedish investors.

On May 6, NOBA called for the early redemption of subordinated Tier 2 notes of SEK 350 million, with May 28 as the redemption date.

On May 3, NOBA repaid senior preferred bonds corresponding to a nominal amount of NOK 1,800 million.

In early May, in cooperation with Raisin Bank AG, NOBA launched savings products in the Irish market and a supplementary offering in the Spanish market where we were already established. With the addition of Ireland, NOBA now has a presence in eight markets.

On April 22, NOBA received a credit rating from Nordic Credit Rating that confirmed the previous credit rating of BBB, stable outlook.

In April, NOBA agreed to securitize a non-performing loans portfolio in Sweden. The portfolio had a gross volume of approximately SEK 700 million, and the transaction had a neutral impact on profit and own funds in the third quarter.

In April, NOBA completed the sale of a portfolio of

non-performing loans in Denmark. The portfolio had a gross volume of approximately DKK 180 million, and the transaction had a neutral impact on profit and own funds.

During the period, the strategic review that was announced in Q3 2023 was expanded to also include a potential public listing of the company.

SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

On July 2, the securitization of the non-performing loans portfolio was completed.

On July 1, an intra-group merger was completed, through which NOBA Holding AB (publ) and NOBA Group AB (publ) were merged into NOBA Bank Group AB (publ), resulting in the dissolution of NOBA Holding AB (publ) and NOBA Group AB (publ). The group's operations were not, and will not be, affected by the merger. After the merger, NOBA Bank Group AB (publ) became the issuer and assumed all obligations and liabilities related to the bonds originally issued by NOBA Holding AB (publ).

In July, through the subsidiary Svensk Hypotekspension 5 AB (publ), new bilateral secured funding was obtained from an international bank. The extension was for two years and included SEK 1,000 million. After the extension, the total funding amounts to SEK 6,000 million.

THE GROUP'S DEVELOPMENT

REVENUE AND PROFIT

SECOND QUARTER

Operating income amounted to SEK 2,398 million (2,078), corresponding to an increase of 15 percent compared with the previous year. Net interest income increased by 15 percent compared with the previous year, to SEK 2,246 million (1,945), due to an increased portfolio volume. However, this was offset by a somewhat lower net interest margin. Net fee and commission income amounted to SEK 172 million (148); the increase was mainly due to increased card volumes. Operating profit amounted to SEK 765 million (454), corresponding to an increase of 69 percent compared with the previous year. The increase was primarily due to revenue growth as well as reduced costs.

As the bank's profit is highly affected at present by transformational expenses, operating loss related to the "Other" segment, in which no new sales are made, and amortization of intangible transaction surplus values mainly related to Bank Norwegian, management is also monitoring operations based on adjusted profit, which excludes the effect of these items. Adjusted operating profit amounted to SEK 900 million (637)¹.

JANUARY-JUNE

Operating income amounted to SEK 4,674 million (4,031), corresponding to an increase of 16 percent compared with the same period in the previous year. Net interest income increased by 16 percent compared with the previous year, to SEK 4,393 million (3,796), due to an increased portfolio volume. However, this was offset by a somewhat lower net interest margin. Net fee and commission income amounted to SEK 309 million (249); the increase was mainly due to increased card volumes. Operating profit amounted to SEK 1,300 million (893), corresponding to an increase of 46 percent compared with the same period in the previous year. The increase was primarily due to revenue growth as well as reduced costs.

Adjusted operating profit amounted to SEK 1,548 million (1,218)².

EXPENSES

SECOND QUARTER

Total expenses amounted to SEK -701 million (-785) over the period. Excluding amortization of intangible transaction surplus values, expenses amounted to SEK -667 million (-752). Of these expenses, SEK -585 million (-651) were related to the underlying operations, and SEK -82 million (-101) were transformational expenses linked to the integration of Bank Norwegian, the strategic review of the company that was announced in the third quarter of 2023 and the ongoing change of NOBA's core banking system. The comparative period also included the impairment of intangible assets related to Lilienthal Finance Ltd of SEK -69 million. The underlying cost-to-income ratio improved to 24 percent (31).

Amortization of intangible transaction surplus values amounted to SEK -34 million (-33) as scheduled. The item is a pure accounting item that refers in all essentials to the allocation of surplus values from the acquisition of Bank Norwegian and does not affect cash flows or capital adequacy, as the asset has already been deducted from own funds.

JANUARY-JUNE

Total expenses amounted to SEK -1,351 million (-1,476) over the period. Excluding amortization of intangible transaction surplus values, expenses amounted to SEK -1,284 million (-1,408). Of these expenses, SEK -1,149 million (-1,253) were related to the underlying operations, and SEK -135 million (-155) were transformational expenses linked to the integration of Bank Norwegian, the strategic review of the company that was announced in the third quarter of 2023 and the ongoing change of NOBA's core banking system. The comparative period also included the impairment of intangible assets related to Lilienthal Finance Ltd of SEK -69 million. The underlying cost-to-income ratio improved to 25 percent (31).

Amortization of intangible transaction surplus values amounted, according to plan, to SEK -67 million (-68), as scheduled.

¹ Reported operating profit of SEK 765 million (454) adjusted by transformational expenses of SEK -82 million (-31), operating loss from the "Other" segment of SEK 19 million (119) and scheduled amortization of intangible transaction surplus values of SEK -34 million (-33).

² Reported operating profit of SEK 1,300 million (893) adjusted by transformational expenses of SEK -135 million (-85), operating loss from the "Other" segment of SEK 46 million (172) and scheduled amortization of intangible transaction surplus values of SEK -67 million (-68).

CREDIT PORTFOLIO JANUARY– JUNE 2024

Compared with the same period in 2023, lending displayed a good growth, where all portfolios in segments with active new sales grew. Total lending amounted to SEK 117,073 million (101,488) at the end of the second quarter.

CREDIT LOSSES

SECOND QUARTER

Credit losses amounted to SEK -932 million (-839), which corresponded to 3.2 percent (3.4) of average lending, where the increase in absolute figures was due to increased provisions for loans in Stage 3.

JANUARY–JUNE

Credit losses amounted to SEK -2,023 million (-1,662), corresponding to 3.6 percent (3.5) of average lending where the increase was due to increased provisions for loans in Stage 3.

LIQUIDITY AND FINANCIAL INVESTMENTS JANUARY–JUNE 2024

The liquidity reserve amounted to SEK 21,972 million (17,750) and primarily comprised secured bonds, treasury bills and investments in central and Nordic banks.

The liquidity coverage ratio (LCR) was 196.0 percent (185.6).

The net stable funding ratio (NSFR) was 124.4 percent (118.7).

FUNDING JANUARY–JUNE 2024

NOBA has a diversified funding structure with various sources of capital distributed over banks, the capital market and deposits from the general public. Deposits from the general public are the largest source of funding at SEK 107,352 million (87,167).

CAPITAL AND CAPITAL RATIOS JANUARY– JUNE 2024

As of June 30, 2024, the Common Equity Tier 1 capital ratio was 13.37 percent (14.02), the Tier 1 capital ratio was 15.46 percent (15.79), and the total capital ratio was 17.19 percent (17.71). At the same point in time, the capital requirements consisted of a Common Equity Tier 1 capital ratio of 10.24 percent (9.28), a Tier 1 capital ratio of 11.98 percent (11.03) and a total capital ratio of 14.30 percent (13.36).

The main reason for the reduction in capital ratios was that growth in Common Equity Tier 1 capital through profit recognized to date was lower than the increase in the risk exposure amount through increased lending. The Tier 1 capital ratio and the total capital ratio were affected positively by issues of Tier 2 instruments in June 2023 and January 2024 and the issue of Additional Tier 1 instruments in March 2024.

The main reason for the higher capital requirements is that NOBA became subject to the requirement for a systemic risk buffer of 4.5 percent for Norwegian risk exposures as of December 31, 2023. As of June 30, 2024, the requirement for the systemic risk buffer in Norway was 0.98 percent of the total risk exposure amount. Countercyclical buffer rates remained unchanged over the period in the countries where NOBA has exposures. NOBA's countercyclical buffer requirement is 1.53 percent (1.54).

The Common Equity Tier 1 capital rose to SEK 12,456 million (11,328). The Common Equity Tier 1 capital was primarily strengthened due to the profit recognized over the period.

The leverage ratio was 9.78 percent (10.06).

OUR SEGMENTS

In the first quarter of 2024, the operations' division into segments was reviewed, which led to a division into the following segments: Private loans, Credit cards, Secured and Other. The Nordax platform is represented in the Private loans and Secured segments. The Bank Norwegian platform is represented in the Private loans and Credit cards segments, while Svensk Hypotekspension and its equity release (reverse mortgage) products are included in the Secured segment. The Other segment includes private loan portfolios in Spain and Germany and a minor credit card portfolio in Spain, where no active new sales are performed.

PRIVATE LOANS

SEGMENT PERFORMANCE

SEGMENT PERFORMANCE IN THE SECOND QUARTER OF 2024 COMPARED WITH THE SECOND QUARTER OF 2023

PRIVATE LOANS

Compared with the second quarter of 2023, growth was strong in the private loan portfolio. The total volume of private loans amounted to SEK 80,977 million (70,470) at the end of the second quarter. There was growth in all markets. Operating profit amounted to SEK 496 million (375). Higher revenue from an increased loan portfolio contributed to the increase, while higher credit losses had a negative impact.

CREDIT CARDS

Compared with the second quarter of 2023, the credit card portfolio grew strongly. The total credit card volume amounted to SEK 17,309 million (12,735) at the end of the second quarter. There was growth in all markets. Operating profit totaled SEK 182 million (105). The increase was mainly due to revenue from an increased loan portfolio, but higher transaction volumes also contributed.

SECURED

Compared with the second quarter of 2023, the secured portfolio grew strongly. The total volume amounted to SEK 17,718 million (16,744) at the end of the second quarter. Growth was driven by all included areas, with Svensk Hypotekspension as the most substantial contributor. Operating profit amounted to SEK 105 million (93). Both increased revenue and reduced costs contributed to the improved profit.

OTHER

This segment includes portfolios without active new sales and will, therefore, decline steadily over time. The total volume amounted to SEK 1,069 million (1,539) at the end of the second quarter. Operating loss amounted to SEK 19 million (119). Both lower credit losses and reduced costs contributed to the improvement.

SEGMENT PERFORMANCE IN JANUARY-JUNE 2024 COMPARED WITH JANUARY-JUNE 2023

PRIVATE LOANS

The private loan portfolio grew strongly compared with the first six months of 2023. The total volume of private loans amounted to SEK 80,977 million (70,470) at the end of the second quarter. There was growth in all markets. Operating profit amounted to SEK 798 million (690). Higher revenue from an increased loan portfolio contributed to the increase, while higher credit losses had a negative impact.

CREDIT CARDS

Compared with the first six months of 2023, the credit card portfolio grew strongly. The total credit card volume amounted to SEK 17,309 million (12,735) at the end of the second quarter. There was growth in all markets. Operating profit totaled SEK 332 million (230). The increase was mainly due to revenue from an increased loan portfolio, but higher transaction volumes also contributed.

SECURED

Compared with the first six months of 2023, the secured portfolio grew strongly. The total volume amounted to SEK 17,718 million (16,744) at the end of the second quarter. Growth was driven by all included areas, with Svensk Hypotekspension as the most substantial contributor. Operating profit amounted to SEK 216 million (145). Both increased revenue, reduced costs, and lower credit losses contributed to the improved profit.

OTHER

This segment includes portfolios without active new sales and will, therefore, decline steadily over time. The total volume amounted to SEK 1,069 million (1,539) at the end of the second quarter. Operating loss amounted to SEK 46 million (172). Both lower credit losses and reduced costs contributed to the improvement.

SUSTAINABILITY

FINANCIAL HEALTH AND RESPONSIBLE LENDING

NOBA has identified two areas that are specific to our operations: Financial health and Responsible lending. Both of these relate to our focus on enabling financial health for more people. Financial health is at the core of NOBA's operations and applies to all areas of operation. Through our product portfolio, we offer specific and individually adapted solutions that solve important financial problems for private individuals. Responsible lending imbues all our operations and the entire journey for our customers. These principles are firmly rooted in our sustainability strategy. With the introduction of green loans, we also, to a larger extent, enable our customers to contribute to limiting climate change. This encompasses all our green lending offering, including equity release products (reverse mortgages), mortgages and private loans directed at investments for energy savings and electric vehicles.

CLIMATE IMPACT AND TRACEABILITY

NOBA's efforts to measure and report its carbon footprint are part of our ambition to take responsibility for climate change and contribute to its mitigation in any way we can. We not only report our emissions in Scope 1 and 2; we also report our Scope 3 emissions pursuant to the Greenhouse Gas Protocol. This method strengthens NOBA's focus on our indirect climate impact and its traceability. In addition to our Sustainability Policy and Sustainability Reporting Instruction, our efforts to reduce the risks and leverage the opportunities that climate change may have on our operations are governed by a Climate Instruction. Opportunities related to Climate-change primarily include our loan offering, such as our green loans.

GREEN LOANS FACILITATE POSITIVE IMPACT

We are well aware of the significant role that all companies may play in reducing emissions. Therefore, we have developed a product portfolio and a sustainability strategy consistent with regulations and matching the consumer demand for green products. By introducing green loans, we would like to increase our assistance to customers in their efforts to limit

“FOR US, IT’S ABOUT PRACTICING WHAT WE PREACH AND ACTING RESPONSIBLY TOWARDS OUR CUSTOMERS, OUR OWNERS, THE COMPANY AND SOCIETY. FOR IT TO BE SUCCESSFUL, SUSTAINABILITY MUST BE A NATURAL AND INTEGRAL PART OF THE OPERATIONS.”

JACOB LUNDBLAD
/ CEO AND CHAIRMAN OF THE ESG COMMITTEE

climate change. They may apply for loans that allow them to invest in a climate-friendly home, render their existing home more energy-efficient with geothermal heating or solar panels or purchase an electric car or scooter. Equity release loans (reverse mortgages) make it possible for older individuals to borrow money against their homes to release capital for such green investments.

Our General Credit Policy, the credit instruction for mortgages in Sweden and the credit instruction for branches govern the framework for our green loans. These are aligned with the European Banking Authority's (EBA's) guidelines for ensuring that the use of the capital meets our energy efficiency and/or emission reduction requirements. Like the EBA, NOBA is convinced that financial institutions are an important source of sustainable finance. Our development of green loans is also attentive to customer needs regarding the product offering. In 2022, NOBA developed green loan products for electric vehicles and electric bikes, having conducted and evaluated a customer survey on how our products and services could become more sustainable. NOBA will develop these green loan products further in 2024.

To create customer incentives, NOBA offers these green loans with reduced interest rates. These may apply to residential mortgages if the mortgaged building has been classified as Energy Class A or B by Boverket, the Swedish National Board of Housing, Building and Planning.

HEALTHY INITIATIVES

NOBA has launched several educational campaigns to improve financial health among the general public and increase the general knowledge of financial health. These campaigns have involved socio-economic issues and equality in personal finances. We also have educational initiatives aimed at those who do not generally have good access to the financial or banking sectors. We aim to be more inclusive. An example of such an educational initiative is the Healthonomics Report. According to this report, people's financial situations are strongly linked to their physical and mental health and well-being.

Our Relationship Report has been published three years in a row, most recently in 2024. It communicates insights from surveys into how people are affected by the housing market, including their concerns about finding a new home after a separation and how issues related to housing affect relationships.

In 2023, NOBA launched the campaign Hälsonomikollen, a personal finance health check, as part of a broader campaign to inform and educate customers and the general public on typical personal finance issues. The health check is developed in cooperation with psychologists to ensure its relevance. Questions included in the health check cover daily expenses and attitudes to money and personal finances.

SUSTAINABILITY GOVERNANCE

NOBA has established a risk management framework that ensures a sound, comprehensive and effective management of risks and operational control. Sustainability risks, including environmental, social and governance-related risks, are considered integral to NOBA's risk management framework and permeate existing risks pursuant within NOBA's risk taxonomy. The management of sustainability risks relies on the same overarching processes as those used for other risks at NOBA.

To secure the internal governance of NOBA's sustainability efforts, the CEO has established and chairs an ESG Committee that acts as a decision-making body determining the direction and operational initiatives in the sustainability area. The Committee supports the CEO, the management and the Board of Directors by offering relevant information for review and approval of strategies, initiatives and policies. The Committee reports quarterly to the management team and at least annually to the Board of Directors.

FINANCIAL OVERVIEW

SIGNIFICANT RISKS AND UNCERTAINTY FACTORS

The bank's overall policies for governance, risk management and the risk appetite framework determine the group's strategy, appetite and limits for each risk and its associated strategy and assign roles and responsibilities for managing these risks.

The group is exposed to credit risks as well as other financial risks, such as market risk and liquidity risk. The group is also exposed to operational risks, such as IT risks, process risks and external risks, compliance risks, risks of exposure to financial crime and business risks.

The NOBA group has independent functions for risk control and compliance – Group Risk Control and Group Compliance – in accordance with the Swedish Financial Supervisory Authority's Regulations and General Guidelines regarding governance, risk management and control at credit institutions (FFFS 2014:1) as well as the European Banking Authority's Guidelines on internal governance. Group Risk Control and Group Compliance are led and coordinated by the Board's appointed Chief Risk Officer (CRO) and Chief Compliance Officer (CCO), respectively.

The independent control functions report directly to the Board of Directors and the CEO. The internal audit is outsourced to EY.

BOARD OF DIRECTORS

The Board of Directors of NOBA Bank Group AB (publ) comprises Chairman Hans-Ole Jochumsen and Board members Christian Frick, Christopher Ekdaahl, Henrik Källén, Ricard Wennerklint, Ville Talasmäki, Ragnhild Wiborg and the employee representative Daniella Bertlin.

| Cash flow for the period | | 1,064 | -3,269 |
| Cash and cash equivalents at the beginning of the period | | 4,338 | 7,055 |
| Exchange rate differences and cash equivalents | | 148 | 101 |
| Cash and cash equivalents at the end of the period | | 5,550 | 3,887 |

¹Additional setup costs during Q2 2024 of SEK 8 million.

Cash and cash equivalents is defined as cash and balances with central banks and lending to credit institutions. Pledged cash and cash equivalents under Note 15 are available to NOBA in connection with monthly settlement under financing agreements and are therefore defined as cash and cash equivalents due to being pledged for a maximum of 30 days and therefore short-term.

NOTES

The information on pages 1-13 is an intergrated part of this interim report.

NOTE 1 GENERAL INFORMATION

NOBA Bank Group AB (publ) (Corporate Identity Number 556647-7286), with its registered office in Stockholm, Sweden is a wholly owned subsidiary of NOBA Group AB (publ) (Corporate Identity Number 556993-2485), with its registered office in Stockholm. NOBA Group AB (publ) is owned by NOBA Holding AB (publ)(Corporate Identity Number 559097-5743), which is primarily owned indirectly by Nordic Capital Fund VIII, Nordic Capital Fund IX and Sampo Oyi.

The NOBA Bank Group includes the subsidiary Svensk Hypotekspension AB with their subsidiaries, as well as a number of direct subsidiaries of NOBA Bank Group AB (publ). The parent company includes the Norwegian branch Bank Norwegian, en filial av NOBA Bank Group AB (publ).

The Group's business is to conduct lending to the general public in the form of personal loans, mortgage loans, equity release mortgages and credit cards as well as receiving deposits in Sweden, Norway, Denmark, Finland, Germany, Spain, the Netherlands and Ireland. Some of the subsidiaries' operations involve the acquisition of loan portfolios originating from NOBA Bank Group AB (publ) and Svensk Hypotekspension AB for the purpose of raising loan or bond financing. Some of these companies are dormant and currently do not conduct any operations.

NOTE 2 ACCOUNTING AND MEASUREMENT POLICIES

The interim report has been prepared according to IAS 34, Interim Financial Reporting. The consolidated accounts for the NOBA Bank Group have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, together with the Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), the Swedish Financial Accounting Standards Council's recommendation RFR 1, Supplementary Accounting Regulations for Groups, and the Swedish Financial Supervisory Authority's regulations and guidelines FFFS 2008:25.

The report has been prepared in accordance with the same accounting principles and calculation methods that were applied in the annual report for 2023. Segment information is presented according to a new arrangement in note 8, compared to previous years interim reports.

During 2024, no accounting standards were added, which have been published but not yet applied, with any significant effect.

The financial statements are presented in Swedish kronor and all figures are rounded to millions of kronor (SEK million) unless otherwise indicated. No adjustments for rounding are made, therefore summation differences may occur.

FUTURE REGULATORY CHANGES

IFRS 18 Presentation and Disclosure in Financial Statements

The IASB published the new IFRS 18 Presentation and Disclosure in Financial Statements standard on 9 April 2024, which replaces IAS 1 Presentation of Financial Statements. Assuming that IFRS 18 is adopted by the EU, and the date of implementation proposed by the IASB is not changed, this standard is to be applied as of the 2027 financial year. IFRS 18 sets out new requirements for the presentation and disclosure of information in financial statements, with a particular focus on the income statement and enhanced transparency surrounding management-defined performance measures.

The standard is not expected to entail any financial effects for NOBA, as IFRS 18 focuses on presentation and disclosure in financial statements. The Bank plans to commence work on analysing the effects of the new standard.

IFRS 9 Financial instruments och IFRS 7 Financial instrument: disclosure

On 30 May 2024, the IASB published new amendments regarding IFRS 9 Financial instrument and IFRS 7 Financial instrument: disclosures that is to be applied as of the 2026 financial year, earlier application is permitted after adoption by the EU. The Bank plans to commence work on analysing the effects of the amendments of the standards.

Other changes in IFRS

None of the other forthcoming changes in the accounting regulations issued for application are assessed to have a material impact on NOBA's financial reports, capital adequacy, large exposures or other circumstances according to the applicable regulatory requirements.

NOTE 3 SIGNIFICANT ACCOUNTING ESTIMATES

Presentation of consolidated financial statements in conformity with IFRS requires the executive management to make judgments and estimates that affect the recognized amounts of assets, liabilities and disclosures of contingent assets and liabilities as of the reporting date as well as the recognized income and expenses during the reporting period. The executive management continuously evaluates these judgments and estimates, including assessing control over investment funds, the fair value of financial instruments, provisions for credit impairment, impairment testing of goodwill and deferred taxes. Post-model expert credit adjustments to the credit impairment provisions continue to be necessary, given the geopolitical and economic uncertainties. Details of these are found in Note 13.

Beyond that, there have been no significant changes to the basis upon which the critical accounting judgments and estimates have been determined compared with 31 December 2023.

NOTE 4 FINANCIAL RISK MANAGEMENT, GROUP

MAXIMUM EXPOSURE TO CREDIT RISK

| SEK million | 2024-06-30 | 2023-12-31 |

NOTE 5 CAPITAL ADEQUACY ANALYSIS, CONSOLIDATED SITUATION

The information in this note is disclosed in accordance with Chapter 8, Section 4 of the Swedish Financial Supervisory Authority's regulations and general guidelines regarding annual reports at credit institutions and securities companies (FFFS 2008:25), as well as Chapter 8, Section 1 of the Swedish Financial Supervisory Authority's regulations and general guidelines regarding prudential requirements and capital buffers (FFFS 2014:12). Information in Article 447 of Regulation (EU) No 575/2013 and Article 473a point 6 (transitional arrangement of IFRS9 for own funds) in accordance with (EBA/ GL/2018/01 and EBA/GL/2020/12) as well as the disclosure requirements of the same regulation). The liquidity and funding information is disclosed in accordance with Chapter 5, Section 2 of the Swedish Financial Supervisory Authority's regulations regarding management of liquidity risks in credit institutions and investment firms (FFFS 2010:7).

INFORMATION ON THE CONSOLIDATED SITUATION

The top company in the Consolidated Situation is NOBA Holding AB (publ). The following companies are included in the Consolidated Situation when calculating capital requirements: NOBA Holding AB (publ), NOBA Group AB (publ), NOBA Bank Group AB (publ), NOBA Finland 1 AB, NOBA Sverige AB, Nordax Sverige 5 AB (publ), Nordax Sweden Mortgages 1 AB (publ), Svensk Hypotekspension AB and affiliated subsidiaries Svensk Hypotekspension Fond 2 AB, Svensk Hypotekspension Fond 3 AB (publ), Svensk Hypotekspension Fond 4 AB (publ) and Svensk Hypotekspension 5 AB (publ), in addition to Lilienthal Finance Ltd.

MERGER WITH BANK NORWEGIAN

The merger between NOBA Bank Group AB (at the time of merger Nordax Bank AB) and Bank Norwegian ASA was completed on the 30 November 2022. The merger was implemented with NOBA Bank as the surviving company and Bank Norwegian as the transferring company, with the operations of Bank Norwegian being continued through NOBA's Norwegian branch, the legal name of which is Bank Norwegian, a branch of NOBA Bank Group AB (publ) (the "Branch").

The capital requirements for the consolidated situation did not change as result of merger. However, the capital requirement on solo level increased due to the replacement of shareholdings in Bank Norwegian by the assets of Bank Norwegian, as well as the surplus value of lending portfolio that arose in connection with the acquisition.

The acquisition of Bank Norwegian ASA was financed by NOBA Holding AB (publ) (at the time of merger Nordax Holding AB (publ)) via new share issue of SEK 9.7 billion, new issuance of SEK 1.4 billion in Additional Tier 1 capital and SEK 650 million Tier 2 capital, which was invested by external investors. NOBA Group AB (publ) (at the time of merger Nordax Group AB (publ)) issued corresponding instruments and amounts which

was invested by NOBA Holding AB (publ). NOBA Bank Group AB (publ) issued the corresponding amounts and instruments which was invested by NOBA Group AB (publ).

The acquisition has also been financed via non-cash issuance of Bank Norwegian shares with a value of SEK 4.4 billion, unconditional shareholder contribution of SEK 1 billion, conditional shareholder contribution of SEK 8.4 billion and a loan of SEK 200 million from NOBA Holding AB (publ). At the time of the legal merger, the conditional shareholder contribution was converted to unconditional shareholder contribution. In December 2022 the loan from NOBA Holding, including accrued interest, was also converted to unconditional shareholder contributions of SEK 203 million.

CAPITAL INSTRUMENTS

The aforementioned capital instruments are included in the consolidated situation's capital base as well as, after adjustment for qualified capital instruments, the additional Tier 1 capital of SEK 582 million and Tier 2 capital of SEK 976 million issued by NOBA Bank Group AB.

EXEMPTION AS PER ARTICLE 352.2

On 18 March 2022, the Swedish FSA granted NOBA an exception according to article 352.2 in Regulation (EU) No 575/2013 to include goodwill and intangible assets denominated in NOK, resulting from the acquisition of Bank Norwegian, when calculating open FX positions for the Consolidated Situation. With this exception, the corresponding FX swap positions has been terminated, in line with the current risk management strategy.

On 30 December 2022, a similar exception has been granted for NOBA Bank Group AB regarding goodwill and intangible assets which, after the merger of Bank Norwegian, has become part of NOBA Bank Group's balance sheet. The Swedish FSA decision means a corresponding reduction in NOBA Bank Group's risk exposure amount for the market risk.

IFRS 9 TRANSITIONAL ARRANGEMENT

NOBA has notified the Swedish FSA that NOBA has decided to use the transitional arrangement for credit provisions for stages 1 and 2 that arose after December 31, 2019. In 2023, 50% of the negative effects of these credit provisions was added back to CET1 capital whereas 25% of this negative effect will be added back in 2024. From 1 January 2025, no add-back will be made. During the quarter, the add-back amount to CET1 capital increased to SEK 300 million (294).

LIQUIDITY RESERVE AND OWN FUNDS

With the exception of Swedish central bank certificates all of NOBA's securities holdings in the liquidity reserve are accounted at fair value. Changes in fair value are reported either through profit and loss or through other comprehensive

NOTE 5 CAPITAL ADEQUACY ANALYSIS, CONSOLIDATED SITUATION

income based on the assessed business model as per IFRS9. In either case the changes affect CET1. Thus, sales of holdings in the liquidity reserve have no impact on own funds

COMBINED BUFFER REQUIREMENT

The combined buffer requirement for the Consolidated Situation consists of the capital conservation buffer requirement, the countercyclical capital buffer requirement and the systemic risk buffer requirement for Norwegian exposure. The capital conservation buffer requirement amounts to 2.5% of the risk-weighted exposure amount. The countercyclical capital buffer is weighted based on geographical requirements. For Finland and Spain the requirement amounted to 0%, for Germany the requirement amounted to 0.75%, for Norway and Denmark the requirement amounted to 2.5% while the requirement was 2% for Sweden.

Upon the request of the Norwegian Ministry of Finance, the European systemic risk board, ESRB, has lowered the threshold to NOK 5 billion as of 31 December 2023. The Swedish Financial Supervisory Authority has recognized and reciprocated the recommendation of the Norwegian Ministry of Finance. Therefore, the Norwegian systemic risk buffer requirement has become applicable to NOBA for the Norwegian exposure. The Systemic risk buffer requirement amounts to 4.5% of the risk exposure amount in Norway, which for NOBA corresponds to 0.98% of the total risk exposure amount.

UPCOMING CHANGES IN CRR AND CRD

On 19 June 2024 the 2024 amendments to CRR, and Capital Requirement Directive, CRD, was published in EU's official journal, this constitutes the last step of EU's implementation of Basel 3. The regulations will enter into force 1 January 2025, although several amendments have a later date of implementation or a transitional period.

Two important changes for NOBA will be implemented as early as 2025 relate to the standardised method for credit risk. On the one hand, the risk weights for exposures secured by real estate immovable property are changed, which is expected to lower the risk exposure amount for loans issued by SHP. And on the other hand, a lower risk weight is introduced for credit card exposures where the customer repays the outstanding balance in full at each scheduled repayment date, which lower the total risk exposure amount for the credit card.

NOTE 5 CAPITAL ADEQUACY ANALYSIS, CONSOLIDATED SITUATION

THE COMPARATIVE FIGURES IN THE FOLLOWING SECTION REFER TO VALUES AS OF 31 MARCH 2024

INTERNAL CAPITAL REQUIREMENT

As at 30 June 2024, the internally assessed capital requirement for Consolidated Situation amounted to SEK 1,197 million (1,104 million). NOBA has not received a Pillar 2 guidance as the Swedish Financial Supervisory Authority has not yet conducted its Supervisory Review and Evaluation process.

TOTAL CAPITAL REQUIREMENT

The total capital requirement, including combined buffers, for the period amounts to SEK 13,319 million (SEK 12,949 million). The increase is mainly driven by increased lending.

LEVERAGE RATIO

Leverage ratio is a non-risk-based capital measure where Tier 1 capital is set in relation to the total assets with adjusted derivatives as well as off-balance sheet commitments recalculated with conversion factors. As of 30 June 2024, the Consolidated Situation's leverage ratio was 9.78% (9.47%), which is well in excess of the 3% requirement.

INFORMATION ON LIQUIDITY RISK

NOBA defines liquidity risk as the risk of failing to fulfil payment obligations at maturity with a significant increase in the cost of obtaining means of payment. NOBA uses asset-backed borrowing in which parts of the asset portfolios are pledged as collateral for the loans. The long-term strategy is to match lending assets with the maturities of liabilities. The strategy strives to achieve a diversified funding platform comprising equity, subordinated debt, securitizations ("ABS"), credit facilities provided by banks, deposits from the public and senior uncovered bonds.

The goal is to use funding sources that meet the following criteria:

- Provide a high degree of matching of currencies and interest periods as well as maturities between assets and liabilities.
- Offer diversification in terms of markets, investors, instruments, maturities, currencies, counterparties, and geography.
- Give a low liquidity risk and offer a strong possibility of refinancing at maturity, as evidenced by price stability, regularity of issuance and a broad investor base.
- Provide access to relatively large volumes, to meet the funding requirements of a growing balance sheet.

The Treasury function is responsible for managing liquidity risk, including daily measurement and reporting to the

company's management. Cash flows expected to occur if all assets, liabilities, and off-balance sheet items are liquidated sheet, provides values for risk indicators such as the Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), survival horizon, and deposit usage. The risk indicators are limited and monitored over time to highlight changes in the financial structure and the group's liquidity risk.

The Risk Control function is responsible for the independent control of liquidity risk and reports risk indicators to the Board of Directors and the CEO on a monthly basis. The function analyses and reports the impact on the liquidity situation in various scenarios, such as changes in exchange rates, deposit and lending volumes, credit losses, and market values.

The contingency plan contains a clear division of responsibilities and instructions on how NOBA should respond in a liquidity crisis. The plan specifies appropriate actions to manage the consequences of various types of crises and contains definitions of events that trigger and escalate the contingency plan.

As of 30 June 2024, NOBA Consolidated Situation's Liquidity Coverage Ratio (LCR) was 196.0% (214.7%). The net stable funding ratio (NSFR) was 124.4% (123.8%), calculated in accordance with the definition in Regulation (EU) No. 575/2013.

The Consolidated Situation's liquidity reserves as of 30 June 2024 amounts to SEK 22.0 billion (SEK 23.7 billion). Of these investments, 44.7% (29.0%) are invested in covered bonds, 6.0% (11.2%) in Nordic credit institutions and 24.6% (27.2 %) invested with central banks.

The remaining balances are invested in interest bearing securities issued by central governments, municipalities, supra nationals and international development banks. The credit assessment of these investments is generally high and therefore have high credit rating, between AAA and AA, from leading credit rating agencies. Norwegian municipalities do not have a credit rating but are considered from risk management and risk measurement view as AA assets, in line with the Norwegian FSA recommendation, which corresponds to a credit rating one grade lower than the Norwegian government.

The average maturity of the liquidity reserve amounts to 642 (418) days and has an interest duration of 0.15 (0.18).

As of 30 June 2024, NOBA Consolidation Situation's funding sources comprises of SEK 1,605 million (2,745) of corporate bonds, SEK 13,712 million (10,985) financing against pledges with international banks, and SEK 107,352 million (105,167) of retail deposits.

¹ Fair value is deemed to be the same as the carrying amount, as these are of a short-term nature.

² The measurement includes significant observable and non-observable inputs.

³ Fair value is deemed to be the same as the carrying amount, as these are to variable rate.

⁴ Fair value data for issued securities and debenture loans are based directly or indirectly on quoted prices.

NOTE 7 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES, GROUP

CALCULATION OF FAIR VALUE

VALUATION TECHNIQUE FOR MEASURING FAIR VALUE - LEVEL 1

The fair value of financial instruments traded in an active market (e.g., financial assets held for trading and available-for-sale financial assets) is based on quoted market prices on the balance sheet date. A market is considered active if quoted prices from a stock exchange, broker, industry group, pricing service or monitoring authority are readily and regularly available and these prices represent real and regularly occurring arm's length market transactions. The quoted market price used for the Group's financial assets is the current purchase price.

VALUATION TECHNIQUE FOR MEASURING FAIR VALUE - LEVEL 2

Fair value for bonds is measured, as in level 1, from market prices, with the difference that the prices are not considered from an active market. The market price derived in this case from buy and sell position prices, but regular trading does not take place in the bond. If market prices are missing, the value is calculated by discounting expected cash flows. For discounting, the current market interest rate on securities issued by similar issuers.

The fair value of derivatives is measured as the present value of future cash flows based on observable market prices.

FAIR VALUE MEASUREMENT USING MATERIAL, UNOBSERVABLE INPUTS - LEVEL 3

In those cases, one or more essential inputs are not based on observable market information the instrument is classified as level 3. The table below shows the financial instruments valued at fair value, regarding how the classification has been constructed by the fair value hierarchy.

NOBA has a holding of 3 unlisted shares in Stabelo AB, Vipps AB and VN Norge AS that is valued at fair value based on unobservable inputs. As of 30 June 2024 no re-evaluation has been made. As of 30 June 2023, the value on shares in Stabelo AB has been re-evaluated to SEK 127.2 million which corresponds to an impairment of SEK 22.5 million (-15%). This is due to a macro-environment including rapid increasing interest rates. Vipps is calculated to fair value. Fair value on shares in VN Norge AS has as per 2024-06-30 been calculated based on the shares price for Visa Inc, foreign exchange USD/NOK, a liquidity discount as well as a conversion rate.

The value of lending to the general public has been measured based on observable market data by discounting the expected future cash flows of the assets to present value using a discount factor. The expected future cash flows have been based on the size of the portfolio at the end of the balance sheet date and an expected future cash flow on the maximum maturity of the portfolio.

TRANSFERS BETWEEN THE LEVELS

There have been no transfers of financial instruments between the different levels.

SENSITIVITY ANALYSIS FOR LENDING TO THE PUBLIC MEASURED AT FAIR VALUE WITHIN LEVEL 3

A sensitivity analysis of lending to the public measured at fair value within level 3 has been made by changing the assumptions of non-observable data in the valuation model. The sensitivity analysis is made in two parts, one parallel shift of the interest rate curve with 1 percentage point and a decrease in the housing price index of 10 percentage points.

An upwards parallel shift of the interest rate curve with +1 percentage point would result in a negative change in the fair value of SEK 9 million (-) and a downwards parallel shift of the interest rate curve with 1 percentage point would result in a positive change in the fair value of SEK 2 million (-). An immediate positive change in the housing price index of + 10 percentage points would result in a positive change in the fair value of SEK 2 million (-) and a negative change in the housing price index of -10 percentage points would result in a negative change in the fair value of SEK 8 million (-).

The table below shows the changes that have occurred in relation to level 3 instruments:

NOT 8 OPERATING SEGMENTS

Segment information is presented based on the chief operating decision maker's (CODM) perspective, and the segments are identified based on the internal reporting to the CEO, who is identified as the chief operating decision maker. Profit/loss that cannot be attributed to a single segment is allocated using a distribution matrix according to internal principles that management believes to provide a fair allocation to the segments. Several profit/loss measurements are included as they are presented to the chief operating maker to make decisions to allocate resources and assess segment performance, where operating profit is viewed as the main measurement.

The business model is to offer the general public the products Private Loans, Credit Cards and Secured (which includes both Mortgages and Equity Release) conducted through cross-border banking activities in Sweden, Norway, Denmark, Finland, Germany, and Spain. In addition, deposit operations are also carried out in the same way in the corresponding countries with addition for the Netherlands and Ireland, which form part of the financing for the mentioned products. Private

loans in Germany and Spain and Credit Cards in Spain are combined as a separate segment, named Other, to reflect the internal reporting.

Loans on the Nordax platform is included in both the Private Loan and Secured segments. Loans on the Bank Norwegian platform is included in both the Private Loan and Credit Cards segments. SHP are included in the Secured segment with their product equity release mortgages.

During the last quarter period, there have been a change to certain allocation principles in the 2023 comparable figures in the reported segment profit or loss. Only 2023 comparable figures have been changed. For this reason, the periods January-March 2023 and October-December 2023 are included in this report.

NOTE 13 NET CREDIT LOSSES, GROUP

COLLATERAL RECEIVED

Part of NOBA's loan portfolio includes mortgages and equity release mortgages (via the subsidiary SHP), and this lending is secured by mortgages on real property or rights in co-op apartments. The valuation of collateral is part of NOBA's credit origination process and collateral values are continuously monitored through updated valuations.

NOBA's policies for received collateral have not significantly changed during the period and there has been no significant change in the quality of collateral. As of June 30, 2024, NOBA had 312 (227 per December 31, 2023) mortgages with a total volume of SEK 639 million (461) and 1 (1) equity release mortgages with a total volume of SEK 0 million (0) that were classified as being in Stage 3.

SENSITIVITY ANALYSIS

As a general rule, deteriorating macroeconomic development in society leads to higher credit losses. Similarly, improvements in the development results in lower credit losses.

In calculating the future need for credit loss reserves, an assessment is made of the probability of various future scenarios occurring. This probability-weighted outcome is the amount recognized as the credit loss reserve.

The sensitivity analysis is based on analysis of the combined sensitivity of the ECL models applied within the Group. For loans on the Nordax platform the Negative scenario entails increasing the likelihood of the Negative macro scenario from a base assumption of 5% to 30%. Currently 5% is applied (6% per December 31 2023). For loans on the Bank Norwegian platform the Negative scenario is based on applying 100% weighting of the pessimistic scenario. Currently weighting is 32.5% Base, 30% optimistic and 37.5% pessimistic which is the same as per 31 December 2023. For loans on the Nordax platform the Positive scenario entails reducing the likelihood of the Negative macro scenario to 1% and for Bank Norwegian applying 100% weighting of the optimistic scenario.

The Negative scenario entails a negative impact on the loan loss reserves of SEK 281 million (264), whereof SEK 213 million (197) relates to loans on the Nordax platform and SEK 68 million (67) relates to loans on the Bank Norwegian platform. While the Positive scenario entails a positive impact on the loan loss reserves of SEK 101 million (92), whereof SEK 34 million (32) relates to loans on the Nordax platform and SEK 67 million (60) relates to loans on the Bank Norwegian platform.

SENSITIVITY ANALYSIS

NOTE 17 SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

On July 2, the securitization of the non-performing loans portfolio was completed.

On July 1, an intra-group merger was completed, through which NOBA Holding AB (publ) and NOBA Group AB (publ) were merged into NOBA Bank Group AB (publ), resulting in the dissolution of NOBA Holding AB (publ) and NOBA Group AB (publ). The group's operations were not, and will not be, affected by the merger. After the merger, NOBA Bank Group AB (publ) became the issuer and assumed all obligations and liabilities related to the bonds originally issued by NOBA Holding AB (publ).

In July, through the subsidiary Svensk Hypotekspension 5 AB (publ), new bilateral secured funding was obtained from an international bank. The extension was for two years and included SEK 1,000 million. After the extension, the total funding amounts to SEK 6,000 million.

DEFINITIONS

THE GROUP CONSIDERS THE KEY FIGURES TO BE RELEVANT TO USERS OF THE FINANCIAL REPORT AS A COMPLEMENT IN ASSESSING THE FINANCIAL PERFORMANCE OF THE GROUP

Adjusted cost to income ratio

Total operating expenses excluding amortization/impairment of intangible assets related to surplus values from previous acquisitions and transformational costs in relation to total operating income.

Adjusted operating profit

Reported operating profit adjusted for amortization/impairment of intangible transaction surplus values, transformational costs and operating profit from portfolios included in operating segment "Other".

Average loan portfolio

The average of lending to the general public at the beginning of the period and the end of the period.

Average number of full-time employees

The average amount of hours worked during the period re-calculated as full-time equivalents. Excludes persons on long-term sick-leave or parental leave.

Cost to income ratio

Total operating expenses in relation to total operating income.

Common Equity Tier 1 capital¹

Shareholders' equity excluding proposed dividend, deferred tax assets, intangible assets and certain other regulatory adjustments defined in Regulation (EU) No 575/2013 (CRR2).

Common Equity Tier 1 capital ratio¹

Common Equity Tier 1 capital as a percentage of risk exposure amount.

Credit loss level, %

Net credit losses as a percentage of average lending to the public.

Earnings per share

Net profit for the period attributable to shareholders divided by the average number of outstanding shares.

Leverage ratio¹

Tier 1 capital as a percentage of total assets including off-balance-sheet items with conversion factors defined in Regulation (EU) No 575/2013 (CRR2).

Liquidity Coverage Ratio (LCR)¹

Liquidity Coverage Ratio (LCR)¹ High-quality liquid assets in relation to the estimated net cash outflows over the next 30 calendar days, as defined in Commission Delegated Regulation (EU) 2015/61 and Regulation (EU) No 575/2013.

Liquidity reserve

A separate reserve of high-quality liquid assets that can be used to secure the company's short-term ability to pay for losses or in the event of reduced access to commonly available funding sources.

Net interest margin, %

Net interest income in relation to average lending portfolio.

Net Stable Funding Ratio (NSFR)

Measures and monitors the relationship between available stable funding and required stable funding over a one-year period.

Other Tier 1 capital¹

Subordinated liabilities that are perpetual and meet certain conditions to be counted as Tier 1 capital when calculating the size of the capital base.

Own funds¹

The sum of Tier 1 and Tier 2 capital.

Return on assets, %

Net profit for the period in relation to total assets.

Return on equity excl. intangible assets and Tier 1 capital

Net profit for the period after deduction of profit attributable to holders of Tier 1 capital in relation to total equity after deduction of intangible assets and Tier 1 capital.

¹ These are reported with respect SFSA's regulations and general recommendations see Note 5, capital adequacy analysis.

DEFINITIONS

Risk exposure amount¹

Total assets and off-balance sheet items, weighted in accordance with capital adequacy regulation for credit and market risks. Operational risks are measured and added as risk exposure amount.

ROTE

See "Return on equity excl. intangible assets and Tier 1 capital".

Tier 1 capital¹

Common Equity Tier 1 capital plus qualifying forms of subordinated loans.

Tier 1 capital ratio¹

Tier 1 capital as a percentage of the risk exposure amount.

Tier 2 capital¹

Mainly subordinated loans that do not qualify as Tier 1 capital.

Total capital ratio¹

Total own funds as a percentage of the risk exposure amount.

¹ These are reported with respect SFSA's regulations and general recommendations see Note 5, capital adequacy analysis.
